RECOMMENDED ACTION AND JUSTIFICATION:
It is recommended that the Board of Supervisors approve a Memorandum of Understanding (MOU) to establish a public/private partnership between the Economic Development Corporation (EDC) and County of Mariposa to enter into a grant subscription service (Attachment 1); and authorize the award of a **Contract For Services** in the amount of $8,500 to eCivis for a grant subscription service to assist county staff with research and development of grant applications (Attachment 2).

BACKGROUND AND HISTORY OF BOARD ACTIONS:
On December 9, 2008, the County Board of Supervisor approved a Memorandum of Understanding (MOU) between the Economic Development Corporation of Mariposa County (EDC) and the County of Mariposa establishing a public/private partnership to engage in initiatives fostering business growth in Mariposa County.

As an extension of the partnership, the EDC is proposing to provide $8,500 to Mariposa County to cover an annual subscription upon entering into a contract with eCivis, Inc. a Delaware corporation ("eCivis"), to provide county staff with necessary tools to conduct research and develop grant applications.

While it is difficult to ascertain the volume of grants and subsidies the County has lost, it is clear that other governmental jurisdictions have outperformed Mariposa County due to their knowledge of available grant funding sources and assistance provided by eCivis. Given the downturn of local, national and global economy, it is imperative that Mariposa County be in position to better leverage its capacity seeking grant funding to execute projects and performance. Moreover, it is anticipated that the collaborative efforts of eCivis will improve productivity of county staff relative to grant research and writing, resulting in successful grant awards.

Proposal:
Pursuant to the service agreement between the County of Mariposa and eCivis, the term of the agreement is from 8/15/09 to 8/14/2010 for a sum of $8,500. This provides up to four users (County staff) and includes free online training for how to use the eCivis system. The EDC would expect that the Business Development Coordinator be one of the fours users (enabling grants with either the County or the EDC as the applicant) with the remaining three users designated at the discretion of County to fulfill specific needs and/or optimize use of service. The County will ensure that all four users complete the online training course, and may optionally choose to have the Business Development Coordinator attend an onsite training course at its expense.

The EDC will pay the full annual subscription fee of $8,500, which would allow the use of the eCivis service to be financially risk-free to the County. If the County receives $100,000 or more in grants based on use of the eCivis service, then the EDC would expect to be reimbursed in full and the County would begin paying the annual subscription fee directly to eCivis.

The EDC would expect a quarterly report from the County on its use of the service. This report need not be elaborate, but should include at a minimum a listing of all grant requests that were submitted or considered, along with a brief explanation why no application was submitted for the latter. Further, the report should include which grant applications were successful. Should any quarterly report reveal that the County is not adequately utilizing the services; the EDC will be permitted to designate different users.

An assessment will be conducted by the County Administrator Officer and a representative of the EDC at the end of the subscription period to determine the success of using the service. The service will be considered successful if the County has been awarded $100,000 or more in grants as a result of using the eCivis Grants Network Platform. The EDC understands this assessment will be subjective. Some cases are expected to be rather obvious; that is, the County would not have received an award without Revised Dec. 2002
