Sheriff-Coroner-Public Administrator

Joel A. Bibby
Undersheriff

Press Release

April 29, 2014 ~ 12:00 pm
Nixle

The Mariposa County Sheriff's Office will introduce a new communications service, effective April 28, 2014 that allows us to send important, valuable community information directly to residents using the latest technology.

Nixle Community Information Service allows us to create and publish messages to be delivered to registered users instantly via cell phone text message, voice dial and/or email. This will allow us to rapidly inform users of emergency information, fire evacuation information, upcoming clinics and classes, missing person(s), press releases, photos & documents, as well as other relevant safety and community event information. Users will have the ability to text & email our office with TIPS and photos of criminals/crimes.

"For our office, this service will enable community-policing outreach in new ways. Building a communications structure can help inform, solve crimes, build safer communities, and promote a positive dialogue/partnership between residents and their Sheriff's Office" Doug Binnewies

Users can choose the way in which alerts are received, whether it is by email, text message, or over the web. The service is secure, reliable and easy to use.

To register simply visit our website at www.mariposacounty.org/sheriff and follow the links to register or text your zip code to 888-777.

We are very excited to have you experience it for yourself.

About Nixle

Nixle is a community information service provider built exclusively to provide secure and reliable communications. It is the first authenticated and secure service that connects municipal agencies and community organizations to residents in real time, delivering information to geographically targeted consumers over their cell phones (via text messages), through e-mails and via Web access. Nixle has secured a partnership with Nlets (the International Justice and Public Safety Network), allowing local police departments nationwide to send immediate alerts and advisories. For more information, visit

www.nixle.com.
