RESOLUTION NO. 05-111

RESOLUTION PROCLAIMING EXISTENCE OF A LOCAL EMERGENCY AND REQUESTING GOVERNOR TO PROCLAIM A STATE OF EMERGENCY

WHEREAS, Section 8630 of the Government Code mandates that a local emergency may be proclaimed only by the governing body of a local agency, or, if it has been previously declared by an official designated by the governing body, such local emergency must be ratified within 7 days by the governing body of the local agency; and

WHEREAS, the Board of Supervisors does hereby find that conditions of extreme peril to the safety of persons and property have arisen within Mariposa County, caused by a series of floods commencing on or about March 22, 2005; and

WHEREAS, the Emergency Planning Coordinator has previously declared a local emergency in Mariposa County as a result of a series of floods; and

WHEREAS, the Chairman of the Board of Supervisors serving in his capacity as Director of Emergency Services of Mariposa County on March 25, 2005 declared the existence of a local emergency and requested the Governor to Proclaim a State of Emergency; and

WHEREAS, in many areas throughout the county flooding has occurred causing damage to County and other public and district facilities, including but not limited to, water inundation of buildings, washed out bridges and roads as set forth more specifically in Exhibit “A” attached hereto; and

WHEREAS, local resources have been exhausted; and

WHEREAS, the aforesaid conditions of extreme peril warrant and necessitate the proclamation of a local emergency;

NOW, THEREFORE, BE IT HEREBY PROCLAIMED that a local emergency now exists throughout Mariposa County; and

IT IS FURTHER PROCLAIMED AND ORDERED that during the existence of the local emergency the powers, functions, and duties of the Director of Emergency Services and the emergency services organization of the County shall be those prescribed by state law, by ordinances, and by resolutions of Mariposa County approved by the Board of Supervisors; and

WHEREAS, it has now been found that local resources are unable to cope with the effects of this emergency;

NOW, THEREFORE, IT IS HEREBY RESOLVED AND ORDERED that a copy of this Resolution be forwarded to the Governor of California with the request that he proclaim the County of Mariposa to be in a state of emergency; and
IT IS FURTHER ORDERED that a copy of this Resolution be forwarded to the State Director of the Office of Emergency Services; and

IT IS FURTHER RESOLVED that Richard H. Inman, County Administrative Officer and Emergency Services Officer, or his designee, is hereby designated as the local Hazard Mitigation Coordinator of the County of Mariposa for the purpose of assessing damage within Mariposa County and consulting with federal/state survey teams about hazard mitigation actions; and

IT IS FURTHER RESOLVED that Richard H. Inman, or his designee, is hereby designated as the authorized representative for public assistance, and Richard H. Inman, or his designee, is hereby designated as the authorized representative for individual assistance of the County of Mariposa for purpose of receipt, processing and coordination of all inquiries and requirements necessary to obtain available state and federal assistance.

PASSED AND ADOPTED by the Board of Supervisors of the County of Mariposa, a political subdivision of the State of California, this 29th day of March, 2005 by the following vote:

AYES: TURPIN, BIBBY, FRITZ, PICKARD
NOES: NONE
ABSENT: STETSON

AGENDA of the BOARD OF SUPERVISORS

Meetings convene at 9:00 a.m., the first four Tuesdays of each month, at the Mariposa County Government Center, Board Chambers at 5100 Bullion Street.

Board may take action sitting as the Board of Supervisors, and as the governing body of: County Service Area 1M (Don Pedro); Mariposa Pines Sewer Zone; Sewer Zone (Don Pedro); Coulterville Sewer and Water Zone; Mariposa Parking District; Wawona County Service Area 2-W; Hornitos Lighting District; Mariposa Lighting District; Coulterville Lighting District; Mariposa Air Pollution Control District; Yosemite West Maintenance District; Mariposa County Water Agency; Local Transportation Commission; Housing Authority of the County of Mariposa; Countywide Service Area; and the Mariposa County Public Finance Corporation.

Citizens wishing to schedule matters for Board consideration or to appear before the Board must contact the Clerk of the Board in writing stating the action requested. Appropriate requests will be scheduled before the Board as time allows. The deadline for submission of written materials is on Friday prior to noon (11 days in advance of meeting), so the Agenda can be processed and packages available on Tuesday for the following week's meeting. An original and 14 copies of all supporting materials must be submitted.

Public Presentations: The law provides the opportunity for the public to be heard on any item within the subject matter jurisdiction of the Board, before or during the consideration of that item by the Board. For items on the timed agenda, this will be at the time the item is called by the Chairman. For all other items, including items not on the Agenda, the public presentation time at the start of each meeting is appropriate. The Chairman may set time limits as appropriate to manage the Agenda. State law does not allow action to be taken on any item not appearing on the Agenda unless the action is otherwise authorized by Government Code Section 54954.2(b) which permits items not on the Agenda to be acted upon as delineated in Section 54954.2(b).

Agendas and supporting documentation are available for review on Wednesday at the Board office. Mailed requests for Minutes and Agendas must be accompanied by self-addressed, stamped envelopes. They are also available at www.mariposacounty.org/board.

March 29, 2005

AGENDA FOR SPECIAL MEETING

Time Description
9:00 a.m. Supervisor Bob Pickard, Chairman;
Discussion and Necessary Actions Regarding the Flooding that Recently Occurred throughout the County;
and Adoption of Resolution Declaring Local Emergency

Posted: March 24, 2005, at 3:00 p.m.

In compliance with the American Disabilities Act, if you need special assistance to participate in this meeting, please contact the Clerk of the Board’s Office.
9:11 a.m. The Special Meeting was called to order at the Mariposa County Government Center, with Supervisor Stetson excused.

Chairman Pickard noted that this meeting was called and noticed in compliance with the Brown Act requirements for public meetings.

Pledge of Allegiance

Public Presentation for Matters Pertaining to the March 22, 2005, Flooding that Occurred throughout the County:

Charles McGuirk stated he lives on Detwiler Road, and that he came before the Board seven years ago with a petition urging improvements to the road. He noted that the road is in the same condition today, and not just damaged because of the flooding. He stated that over the course of the years, the road has deteriorated to a point that he does not feel that two vehicles, particularly fire trucks, can pass safely. Given the heavy winter rains and the growth of the grass, he feels that we could be in for the worse fire season yet. He commented on the increased development in the area, and he noted that the road condition leaves several residents with a long, one-way access. He stated that a section of the road was built in a stream bed, and he presented photographs showing the condition of Hunters Valley and Detwiler Roads. Chairman Pickard noted that Public Works is continuing to look at these roads and other areas affected by the flooding.

Supervisor Bob Pickard, Chairman;
Discussion and Necessary Actions Regarding the Flooding that Recently Occurred throughout the County; and Adoption of Resolution Declaring Local Emergency

BOARD ACTION: Jim Middleton, Deputy Fire Chief, reviewed the storm activity that occurred on March 22, 2005, and the resulting damage. He advised of damages to the bridges at Homitos Road and Merced Falls and White Rock Road; damages to homes and businesses; and to several roads. He advised that they are still working on the damage assessment, and that they are working with Office of Emergency Services (OES) on this. He noted that the California Department of Corrections (CDC) crews from Mt. Bullion assisted with the sandbags. He also commented on rescues that occurred on Highway 140 at Chase Ranch due to the flooded highway.

Dana Hertfelder, Public Works Director, noted that the current cost estimate for the damage is 1.5 million dollars; however, they are still doing assessments and repairs, and he expects that number to climb. He noted that they will need the water levels to drop to complete their assessment of the bridges.

Jim Middleton reviewed the declaration of a local emergency procedures, and requests for financial assistance from the State and Federal government. He also advised that citizens should be referred to their insurance carriers for possible coverage, and that the Small Business Administration is available to assist small businesses with loans.

Chairman Pickard advised that he contacted Assemblyman Cogdill and Senator Poochigian’s offices, and they hope to have representatives from each office assist with the survey work. Discussion was held. Supervisor Turpin commented on the repairs and the need to look at repairs to avoid these types of damages in the future. Supervisor Bibby complimented Public Works and all of the safety and law enforcement personnel for their response during this disaster. Discussion was held relative to providing additional information, photographs and costs information, for the emergency. Tom Guarino,
County Counsel, advised that an item relative to this local emergency will be placed on the agenda each week until it completes itself, so additional information could be submitted beyond what have been presented to the Board for this meeting, and for submittal to the Governor and OES. He further noted that the Board could direct that the photographs that Mr. McGuirk presented this morning and those of the home that flooded be included at this time in the exhibit. Supervisor Bibby noted that the law enforcement officers and SCOPE officers have been taking photographs. Supervisor Fritz extended her compliments to all of the emergency services, including CDF and CDC, for their amazing teamwork in this disaster.

Jerry Progner, USDA Natural Resources Conservation Service, advised of his contact with the Farm Services Office in Merced for assistance, and he stated he will keep the Board informed of the status.

Chairman Pickard introduced and welcomed Karen Robb, the new County Director/Farm Advisor. Karen commented on the impact the storm had to the agriculture industry. She stated she feels the current estimates they have received for damages are low and will be much higher once infrastructure damage is known. She advised that she is reviewing options for assistance.

(M)Fritz, (S)Bibby, Res. 05-111 was adopted proclaiming the existence of a local emergency and requesting the Governor to proclaim a State of Emergency; with direction that the photographs presented this morning of the Hunters Valley Road area and the house that flooded, be included in the Exhibit to the resolution/Ayes: Turpin, Bibby, Fritz, Pickard; Excused: Stetson.

9:42 a.m. Adjournment

Respectfully submitted,

MARGIE WILLIAMS
Clerk of the Board
Exhibit A

This is preliminary list of damage that took place on March 22, 2005 to Mariposa County. The three major categories that were damaged were roads and bridges, commercial and residential and agricultural.

Commercial and residential

Six businesses in the town of Mariposa were flooded or damaged by the rain. Two homes were flooded in the town of Hornitos.

Roads and Bridges

This is a preliminary list by area of some of the problems that occurred to our road system caused by the heavy rains we experienced on or about March 22, 2005. Repair time frames mentioned below are contingent on weather and extent of damages. Monetary values will be assessed as we continue with the clean up process.

West Area:

1. Bridge on Hornitos Road @ Hornitos experienced a large amount of debris, which caused the river to flow over the bridge. Structural damage has not been assessed to date. Extensive loss of the shoulders including the wing walls occurred. Trees have been removed and shoulder work is scheduled to begin March 28, more debris still needs to be removed, and the structure will be assessed when the flows subside. One lane of traffic remains closed.

2. Bridge on White Rock Road experienced the same problem described above regarding debris and flow over the bridge. One side of this bridge was lifted vertically, and debris is lodged between the wood timbers and the concrete abutment. Structural damage has not been assessed to date. Loss of the shoulders and approaches has occurred on this bridge. Work is scheduled to begin March 28, and the structure will be assessed when the flows subside. This bridge remains closed.

3. Bridge on Schoolhouse Road @ Owens Creek experienced the same problem described above regarding debris and flow over the bridge. Structural damage on this bridge is unlikely, but will be assessed when flows subside. Some shoulder loss occurred on this bridge, and is scheduled to be worked on March 29. No lanes have been closed, but a reduction of speed has been posted.

4. Pendola Garden remains closed, and has not been properly assessed to date.

5. Small slides, and minor washouts have occurred on numerous roads in this area; Hornitos Road, Old Toll Road, Bear Valley Road, Old Highway, to name some of the key roads. Aqua Fria Road has been cleaned up and re-opened.

6. Several County Maintained Roads including Allred Road and Slaughter House Road, experienced storm damage from excessive storm water runoff and will require drainage improvements and need to be regraded.

7. Bridge on Indian Peak Road at Hirsch Road sustained erosion damage.

East Area:

1. Ben Hur Road experienced a washout of the roadway itself, the hole was filled and trench plates used to keep traffic lanes open, repairs are scheduled for next week.
2. Creek crossings on Leonard and Harris Roads, were closed, these should be re-opened today, but have not been adequately assessed for damages.
3. Sherlock Road experienced a considerable washout @ a six-foot culvert, the road was almost impassable, work to be scheduled.
4. Problems occurred at Triangle Road @ Highway 140 bridge, damage has not been adequately assessed to date.
5. The town of Mariposa itself experienced some severe flooding, the area behind and below 49er Market received building damage, erosion that exposed utility lines, and debris. The extent of the damage has not been fully assessed. A bank on Jones Street slide into the road, the cemetery has erosion problems, and the crossing @ 8th Street may have been damaged. Mormon Bar and the 8th Street crossings should be re-opened today.
6. Small slides, and washouts have occurred on numerous roads in this area; Triangle Road, Sherlock Road, Colorado Road, this area still needs to be thoroughly assessed for any additional damage that may have occurred.
7. Hunters Valley road suffered severe damage from excessive storm water runoff and will require drainage repairs and regrading.

North Area:

1. Two bridges on Dogtown Road were flooded due to debris problems, erosion of the abutment has occurred. Numerous portions of this same road experienced small slides and washouts, including lots of debris in the roadway, no additional information is available at this time.
2. Merced Falls Road received extensive washouts and flooding problems, no road closures were experienced.
3. Coulterville Park was flooded, which includes the pool house and the pool itself. Cleanup of this facility has already begun, unknown completion date at this time.
4. Coulterville Cemetery experienced erosion along the roadways, parking areas, and within the site.
5. Small slides, and washouts occurred on numerous roads in this area; Coronado Drive, Beach, La Paloma Road, Cuneo Road, Dogtown Road, Ernst Road, Buck Meadows Road, Greeley Hill Road, Bull Creek Road, this area still needs to be fully assessed for any additional damage that may have occurred.

In summary, it should be noted that reports of problems are still filtering into our office. All of the roads mentioned regarding small slides and washouts have additional problems with them. In general there are numerous headwall and culvert problems, the pavement is basically coming apart, especially in areas that have had dig outs and patches. Springs have been surfacing throughout the County, and are now affecting the paved sections of road that have not received patches in the past. The shoulders and ditch lines have lost material and have been inundated respectively. At this time it would be difficult to put a dollar figure to the damage that occurred, but a tentative estimate would be $1,500,000. This is based on a 40-day cleanup effort, and the assessed damage to date, which is quite incomplete but includes replacement of the Hornitos Bridge and White Rock Bridge.

Agricultural losses

The majority of the damage sustained to agricultural producers in Mariposa County was in the western areas - primarily White Rock-Le Grand area, Catheys Valley, Hornitos, and Don Pedro. The infrastructure damaged include the following: fencing water gaps, crossings, driveways, bridges, metal stakes, pipe panels, corrals, dams, culverts roads, and stock ponds. Various trees
also toppled over onto roads and buildings. The preliminary estimate is $1.5 - 2.0 million - Many of the ranchers have been unable to access their property to assess the damage at this time.

DECLARATION PROCLAIMING EXISTENCE OF A LOCAL EMERGENCY AND REQUESTING GOVERNOR TO PROCLAIM A STATE OF EMERGENCY

WHEREAS, Section 8630 of the Government Code mandates a local emergency may be proclaimed only by the governing body of a local agency, or declared by an official designated by the governing body, such local emergency must be declared within 7 days by the governing body of the local agency; and

WHEREAS, the Chairman of the Board of Supervisors, serving as the Director of Emergency Services for Mariposa County, does hereby find that conditions of extreme peril to the safety of persons and property have arisen within Mariposa County, caused by a series of floods commencing on or about March 22, 2005; and

WHEREAS, the Emergency Planning Coordinator has previously declared a local emergency in Mariposa County as a result of a series of floods; and

WHEREAS, in many areas throughout the county flooding has occurred causing damage to County and other public and district facilities, including but not limited to, water inundation of buildings, washed out bridges and roads as set forth more specifically in Exhibit “A” attached hereto; and

WHEREAS, the aforesaid conditions of extreme peril warrant and necessitate the proclamation of a local emergency; and

WHEREAS, local resources have been exhausted;

NOW, THEREFORE, BE IT HEREBY DECLARED that a local emergency now exists throughout Mariposa County; and

IT IS FURTHER DECLARED AND ORDERED that during the existence of the local emergency the powers, functions, and duties of the Director of Emergency Services and the emergency services organization of the County shall be those prescribed by state law, by ordinances, and by resolutions of Mariposa County approved by the Board of Supervisors; and

WHEREAS, it has now been found that local resources are unable to cope with the effects of this emergency;

NOW, THEREFORE, IT IS HEREBY DECLARED AND ORDERED that a copy of this Declaration be forwarded to the Governor of California with the request that he proclaim the County of Mariposa to be in a state of emergency; and

IT IS FURTHER ORDERED that a copy of this Declaration be forwarded to the State Director of the Office of Emergency Services; and
IT IS FURTHER DECLARED that Richard H. Inman, County Administrative Officer and Emergency Services Officer, or his designee, is designated as the local Hazard Mitigation Coordinator of the County of Mariposa for the purpose of assessing damage within Mariposa County and consulting with federal/state survey teams about hazard mitigation actions; and

IT IS FURTHER DECLARED that Richard H. Inman or his designee, is hereby designated as the authorized representative for public assistance, and Richard H. Inman, or his designee, is hereby designated as the authorized representative for individual assistance of the County of Mariposa for the purpose of receipt, processing and coordination of all inquiries and requirements necessary to obtain available state and federal assistance.

This Declaration is issued this 25 day of March 2005 by the Mariposa County Director of Emergency Services pursuant to authority granted to the Director of Emergency Services by Mariposa County Code Section 2.80.040.

BOB PICKARD, Chairman
Mariposa County Board of Supervisors

APPROVED AS TO FORM:

THOMAS P. GUARINO
County Counsel
This is preliminary list of damage that took place on March 22, 2005 to Mariposa County. The three major categories that were damaged were roads and bridges, commercial and residential and Agricultural.

Commercial and residential

Six businesses in the town of Mariposa were flooded or damaged by the rain. Two homes were flooded in the town of Hornitos.

Roads and Bridges

This is a preliminary list by area of some of the problems that occurred to our road system caused by the heavy rains we experienced on or about March 22, 2005. DECLARATION CONFIRMING EXISTENCE OF A LOCAL EMERGENCY
BY EMERGENCY PLANNING COORDINATOR

WHEREAS, Section 8630 of the Government Code empowers the Director of Emergency Services to declare the existence of a local emergency when said county is affected or likely to be affected by a public calamity and the County Board of Supervisors is not in session; and

WHEREAS, the Emergency Planning Coordinator of the County of Mariposa does hereby find:

That conditions of extreme peril to the safety of persons and property have arisen within said county caused by flood, and

That the County Board of Supervisors of the County of Mariposa is not in session and cannot immediately be called into session;

NOW, THEREFORE, IT IS HEREBY DECLARED that a local emergency now exists throughout said county, and as Chief of Staff to the Emergency Services Officer hereby advises the Director of Emergency Services of such local emergency and requests declaration of the local emergency pursuant to Government Code Section 8630;

IT IS FURTHER DECLARED AND ORDERED that during the existence of said local emergency, the powers, functions, and duties of the emergency organization of this county shall be those prescribed by state law, by ordinances, and resolutions of this county, and by the County of Mariposa Emergency Plan, as approved by the Board of Supervisors.
