RECOMMENDED ACTION AND JUSTIFICATION:

Approve Budget Action transferring funds within the Yosemite West Maintenance District (water division) from contingency to Maintenance of Equipment to cover the cost of rebuilding the well house.

The well at Yosemite West is covered by a well house made of wood, which was removed last spring in order to do repairs on the well. When it came time to cover the well back up for the winter season it was determined that the old building was in such bad shape that it needed to be replaced. Because of being short staffed in the Facilities Division we obtained a quote from Tuff Shed to build and install a custom shed made to our specifications, which would have cost $2,742 not including insulation (quote attached). Due to the urgency of having the well house completed prior to cold/wet weather, we decided it would be better to build it ourselves. The cost of materials including insulation is estimated to be roughly $1,600 and we need to transfer that amount from contingency to Maintenance of Equipment in order to cover this unanticipated expense.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

From time to time the Board approves transferring funds from contingency to cover unexpected costs.

ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

Do not approve the Budget Action transferring funds, which would leave the top of the well exposed and vulnerable to freezing. The well head also needs a cover to meet the Department of Health Services standards.
