RESOLUTION - ACTION REQUESTED 2014-304

MEETING: June 24, 2014

TO: The Board of Supervisors

FROM: Chevon Kothari, Human Services Director

RE: Milhous Children’s Services Agreement with Behavioral Health to Provide Intensive Services

RECOMMENDATION AND JUSTIFICATION:
Approve an Agreement with Milhous Children’s Services to provide intensive youth treatment services for Mariposa County Behavioral Health in an amount not to exceed $53,280 and authorize the Board of Supervisors Chair to sign the Agreement.

The County does not operate inpatient residential facilities. At times severely disturbed children must be placed in residential treatment until such time that they are ready to live in a group home, foster home, or return home with their parents. The length of stay can be as long as ten months.

The Department has used this facility periodically for many years and is satisfied with the services rendered. This contract renewal is necessary for placement of youth in the facility at a negotiated rate. Behavioral Health Staff recommend we continue using this facility for future placements.

Mental Health Board Review:
On recurring contract renewals, the Mental Health Advisory Board has set direction that such contracts will be available for review by the Mental Health Advisory Board members and do not require individual approval unless there are changes in the provisions of the contract. This contract meets these criteria and is submitted to the Board of supervisors for a positive action.

BACKGROUND AND HISTORY OF BOARD ACTIONS:
The current contract was approved by your Board on June 25, 2013 by Resolution Number 2013-268.

ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:
If this contract is not approved, Behavioral Health will be hindered in providing emergency care to children and youth undergoing psychiatric emergencies. When a crisis arises, costs for serving these youth may be increased by not having a contract in place.

FINANCIAL IMPACT:
This contract will continue to be paid with the Mental Health budget units. There will be no impact to the Mental Health Services Act (MHSA) Corrective Action Plan or the County General Fund.

V. Program Description/Service Activities
A. Day Treatment Intensive
The Day Treatment Intensive Program provides a structured, therapeutic milieu in which a range of treatment interventions are incorporated.
1. **Individual and Group Psychotherapy**: comprised of service activities which are therapeutic interventions that focus primarily on symptom reduction as a means to improve functional impairments. DTI includes individual therapy (normally twice a month) and Group Therapy (conducted five days a week). Therapy is focused on the goals identified in each child’s Assessment and Client Plan (ACP). Individual Therapy is provided by BBS Licensed/Waived Mental Health Professionals (LPHA). Measurable Long term goals and short term objectives are addressed with structured therapeutic interventions.

2. **Skill Building Groups**: focus on the utilization of multi-media materials in a group setting to facilitate both a learning process and development of skills necessary for adulthood. Topic areas may include: Assertiveness, Medication Education, Stress Management, Milhous Scouts, Male/Female Relationships, Value Clarification, Cultural Awareness, Self Image, Health and Wellness, Self-esteem Building, Feelings and Transitioning back into the community.

3. **Adjunctive Groups**: provide opportunities for children to express their thoughts and emotions, to explore a deeper understanding of their self, and to increase self-esteem through personal expressions in art, recreation, therapeutic animal interactions, dance, music, etc.

4. **Process Groups**: help children develop the skills necessary to deal with their problems and issues by providing peer interaction and feedback to develop problem-solving strategies and assisting one another in resolving behavior and emotional problems.

5. **Community Meetings**: (conducted five days a week) includes, but not limited to, discussion of daily schedule; any current events, individual issues children or staff wish to discuss to elicit support of the group milieu process; conflict resolution; planning for special events; discussion of day treatment experiences; and debriefing or wrap-up.

6. **Day Treatment Collateral Contact**: is with one or more significant support person(s) in the life of the child. This may include consultation and training to assist in better utilization of services and understanding mental illness. “Medication support services include prescribing, and monitoring of psychiatric medications or biological necessary to alleviate the symptoms of mental illness which are provided by a staff person, within the scope of practice of his/her profession. This service includes:

- evaluation of the need for medication
- evaluation of clinical effectiveness and side effects of medication
• obtaining informed consent  
• medication education (including discussing risks, benefits and alternatives with the individual or significant support persons)  
• plan development related to the delivery of this service and/or to the status of the individual’s community functioning  
• prescribing, psychiatric medications”

Medication support services shall be provided within the staff person’s scope of practice. (Physician, Registered Nurse, Licensed Vocational Nurse or Psychiatric Technician.)

Many of our children benefit from psychotropic medications. All children will be assessed by Milhous’ consulting Psychiatrist. Children who are prescribed medications will be seen more frequently. Children who remain stable on medications may be seen for medication support services by our psychiatrist twice a month. Those children who are not yet stabilized may need to be seen more and preauthorization will be requested. With the intensity of the diagnoses and age of the child, close evaluation of the clinical effectiveness and side effects of the medications is critical. New medications and changes in medications dosage require close monitoring. With Doctors orders, our nursing staff meets with the children between visits with the Psychiatrist to evaluate the clinical effectiveness and side effects of medications. Dispensing of medication is not included as part of our medication support services.

C. Family Therapy focuses on the problems of the child as a family member. Assessment of family dynamics contributing to the emotional disturbance of the child, problem solving techniques and communication skills are included in family therapy. Family therapy is imperative to the successful and sustainable reunification of the child with the family. Family therapy is provided (normally twice a month) by BBS Licensed/Waived Mental Health Professionals (LPHA). Measurable Long term goals and short term objectives are addressed with structured therapeutic interventions.

D. Crisis Intervention  
MCS is prepared to provide crisis intervention services as needed. All staff working with the children have been trained and certified in crisis intervention. Not all children placed with Milhous require crisis intervention services. Milhous’ experience has been that the children placed in our level 14 programs require anywhere from 0 crisis intervention services to an average of 55 minutes per quarter. “Crisis Intervention is a quick emergency response service enabling the Individual to cope with a crisis, while maintaining his/her status as a functioning community member to the greatest extent possible. A crisis is an unplanned event that results in the Individual’s need for immediate service intervention. Crisis Intervention services are limited to stabilization of the presenting emergency.”

E. Therapeutic Behavioral Services  
Therapeutic Behavioral Services (TBS) are supplemental specialty mental health services under the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) benefit. TBS is an intensive, individualized, one-to-one, short-term, outpatient treatment intervention for beneficiaries with serious emotional disturbances (SED) who are at risk of losing their residential placement due to their behavior. For a child to be eligible for TBS, a mental health provider must find that in his or her clinical judgment, either that:
a. It is highly likely that without the additional short-term support of TBS the child will need placement in an acute psychiatric hospital inpatient services, psychiatric health facility services, or crisis residential treatment services.

b. The child needs the additional support of TBS to enable a transition from their current level program to a lower level.

VI. Documentation of Services:
Contractor shall document services under this contract according to service definitions found in Title 9 Medi-Cal regulations, and to specific County requirements outlined in the Documentation Standards section of the contract.

VII. Rates of Service
