FINANCIAL IMPACT:
Funding for this contract is incorporated in the FY14/15 budget for the Social Services budget unit 001-0501. There is no impact to the General Fund.

Benchmark Behavioral Health Systems programs will deliver a comprehensive scope of services that provide a multi-disciplinary approach to quality care.

Individual, Group and Family Therapy

Individual Therapy
Each patient is assigned a primary treatment therapist. The therapist is responsible for working with the treatment team to develop an initial treatment plan. The treatment plan is then adjusted monthly in the monthly progress summary that is available to all members of the treatment team. All individual therapy sessions address both treatment plan objectives and day-to-day treatment concerns. Each patient receives at least one hour of individual therapy per week. As part of the increased therapeutic interventions, each patient on Enterprise receives two therapy sessions per week.

Group Therapy
Each patient attends at least four group therapy sessions per week. These sessions have the responsibility to cover pre-selected specific treatment components such as cognitive distortions, criminal thinking, victim empathy, substance abuse, victim of abuse issues, pro-social identity development and other restorative justice treatment areas. Group therapy sessions will also process day-to-day treatment issues as they arise in the treatment milieu. Enterprise includes a nurse specifically assigned to the unit and the nurse conducts additional groups.

Family Therapy
Each patient is offered phone-based family therapy sessions as required by individual contracts. These sessions focus on family communication, problem solving, conflict resolution, treatment progress, and other family issues. They are supplemented by face-to-face on campus family therapy sessions that are held as approved by individual referral services. Additional visits may occur if family members choose to make their own travel arrangements. The therapist and program director must approve all visits.

Group Skills Training
Each patient attends daily skills training groups that trained qualified mental health workers lead. These psycho-educational groups cover areas such as social skills, anger management, problem solving, independent living, transition, and other daily living areas.

Medical / Psychiatric Care
A team of qualified physicians, including two full-time board certified psychiatrists, provide 24 hour medical and psychiatric care. Psychiatric services include comprehensive neurological, medical and physical examinations. Psychopharmacological interventions are provided as indicated.
Psychological Testing
A licensed psychologist specializing in the assessment of adolescents utilizes an array of objective test instruments to assess the intellectual, emotional and social functioning; as well as propensity for substance abuse and dependence. A psychosexual evaluation and risk assessment will be conducted with patients admitted to programs for sexual behavior problems.

Nursing Care
A team of nurses are employed around the clock to administer medication when needed and to monitor the client’s medical needs. Nurses also assist on the units with milieu management and often lead psychoeducational groups which apply to their field of expertise. Enterprise has a nurse specifically assigned to the unit during waking hours to address the level of need.

Nutritional Services
Patients receive a nutritional screening upon admission. Those patients identified with specific dietary needs will receive a nutritional assessment from a certified dietitian. All patient menus are reviewed and approved by the dietitian.

Benchmark’s educational services are provided on site through our regionally accredited school. Services are provided by state licensed teachers. Students who require special education services will receive those services by a teacher who is certified in special education. Patients develop skills to enhance confidence, self-esteem and courage in supervised community recreational activities. In addition, we provide special opportunities for patients to participate in community based equestrian and snow boarding programs.
