RECOMMENDED ACTION AND JUSTIFICATION: (Policy Item: Yes, No X)

Approve a Personal Services Agreement with Fred Solomon in the amount of $3,250. Mr. Solomon will provide Public Works an analysis and recommendation on the compensation issue with Psomas Engineering.

Psomas Engineering is requesting compensation in the amount of $157,279.00 for services associate with preparation of the final plans and specifications for the Yosemite West Wastewater Treatment Facility Improvements Project. Task G of the Psomas contract with the County required Psomas to prepare the plans and specifications for “the facility improvements necessary for the ultimate build-out.” In their contract with the County, Psomas was to be compensated a lump sum amount of $30,600 for preparation of the plans and specifications for the facility improvements necessary for ultimate build-out. In March 2001, as a result of “changes in original scope of work for the project,” Psomas estimated that an additional $30,510.00 would be required to complete the final plans and specifications necessary to complete the project. In December of 2001, Psomas stated that the additional design fees required to complete the plans and specifications for the project would be $125,000. In January 2001, Psomas stated that the additional design fees required to complete the plans and specifications would be $145,000. Psomas subsequently increased this amount to $157,279 to complete the plans and specifications necessary to meet ultimate build-out. The Department of Public Works, after reviewing the information provided by Psomas, could not find reasonable justification for the $157,279 increase in cost to complete the plans and specifications,

Public Works is requesting Mr. Solomon’s assistance due to the high-level of workload on staff. In addition, Public Works believes that it would be in the County’s best interest to hire an independent, third party, to reevaluate all of the pertinent information and report his findings to help resolve this issue.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

On June 22, 1999, per Resolution No. 99-213, the Board approved the Agreement with Psomas Engineering for design services of the Yosemite West Wastewater Treatment Facility for the estimated cost to be $176,218.

Psomas Engineering was selected as a result of a competitive process in which proposal were solicited from approximately 20 firms. Proposals were received from five firms. From that, two firms were selected in the final selection interview process.
