Re: Community Action Programs / Low Income Home Energy Assistance Program 2005

RECOMMENDED ACTION

It is respectfully recommended that your Board:

1. Approve a contract with Central Valley Opportunity Center (CVOC) to provide weatherization services in the homes of low income residents; and
2. Authorize your Chairman to sign the contract.

BACKGROUND

The purpose of Low Income Home Energy Assistance (LIHEAP) and Department of Energy (DOE) weatherization programs is to provide home weatherization services to low-income County residents. The County has utilized this funding in recent years, serving the elderly, disabled, and working poor. These services are available to both homeowners and renters.

CURRENT SITUATION

Your Board has approved the 2005 LIHEAP contract with the State of California Department of Community Services and Development (CSD) (Res. 05-26). Your Board is being requested to hear the 2005 DOE contract with CSD this date under a separate item. Last year we contracted with Central Valley Opportunity Center (CVOC) for the first time to provide services for our weatherization program (Res. 04-466). This relationship has proven to be beneficial to the County and the contractor. Therefore, we respectfully request your authorization to renew their contract to include current funding in the amount of $92,969. CVOC continues to receive LIHEAP and DOE funds directly from CSD for Stanislaus County and has a trained weatherization crew that is willing and capable of performing these duties. With these two programs, approximately 45 homes in Mariposa County will receive weatherization services.

FINANCIAL

We have budgeted for these programs for FY 2005-06 in the amount of $100,153 for LIHEAP and $8,207 for DOE. These budgeted amounts also include administrative dollars to be used within the Human Services Department, Community Action Programs division. Funds are currently available to begin these services. There is no impact on the County general fund.
