7.04 Termination of Funding: The parties acknowledge that the nature of government finance is unpredictable and that the rights and obligations set forth in this Contract are necessarily contingent upon the receipt and/or appropriation of the necessary funds. In the event that funding is terminated, in whole or in part, for any reason, at any time, this Contract and all obligations of County arising from this Contract shall be immediately discharged. County agrees to inform Contractor no later than thirty (30) calendar days after County determines, in its sole judgment, that funding will be terminated and the final date for which funding will be available.

Mariposa County Invasive Noxious Weed Program  
Member of Sierra – San Joaquin Noxious Weed Alliance  
July 1, 2015 – June 30, 2016

Overall Project Goal:  
To stop the spread of yellow starthistle (Centaurea solstitialis) and other invasive noxious weed species into the Sierra and Stanislaus National Forests as well as the Merced River Canyon, Yosemite National Park, and other areas of Mariposa County through the use of integrated weed management techniques. By defining a line of demarcation at the eastern leading edge of the yellow starthistle movement into the higher elevations, a control effort can be coordinated with land managers and owners to stop the spread into these high risk areas.

Project Methods:  
Continue and intensify eradication and control efforts in the targeted areas, primarily those adjacent to US Forest Service lands, the Merced River Canyon, and Yosemite National Park.

- Contract with a Pest Control Operator to treat yellow starthistle, tocalote, Klamath weed, and other invasive noxious weed species in the county with Milestone, Transline, Accord, and other herbicides in the leading edge areas, particularly along the roadsides
- Contact and work with property owners and agencies in the leading edge areas for control of yellow starthistle, tocalote, and other CDFA rated weed species with integrated weed management methods
- Continue to implement a cooperative cost share spray program with private landowners in these targeted areas to continue the aggressive assault on the invasive noxious weed species seed bank.

Total Project Cost Estimate for Invasive Noxious Weed Control Projects:

Pest Control Operator – California Reforestation:
Contract Services (pest control operator herbicide applications):

- Public area/right-of-way/CDFA rated weeds treatment - 4,500.00
- Landowner 50/50 cost-share program – 200 acres @$120/ac  
  (any remaining funds may also be used for other county invasive weed control projects) - 12,500.00

Total Cost - $17,000.00
