PHEP Supplemental for Ebola Preparedness and Response Activities
Mariposa County Health Department

PHEP Ebola Supplemental Fund Work Plan

Local Health Departments are required to submit a work plan outlining plans, planned activities, and expected outcomes related to public health functions as described in CDC-RFA-TP12-12010302SUPP15. Work plans should not duplicate previously funded activities but rather expand upon such activities (e.g. augment scope, prolong duration).

The work plan is targeted to address public health preparedness capabilities related to the following recipient activities:

Activity 1: Community Preparedness
Activity 2: Public Health Surveillance and Epidemiological Investigation
Activity 3: Public Health Laboratory Testing
Activity 4: Non-Pharmaceutical Interventions
Activity 5: Responder (Worker) Safety and Health
Activity 6: Emergency Public Information and Warning/Information Sharing

Recipient Activity 7: Medical Surge

Please provide the following information for each of the seven (7) recipient activities as noted on page 12 of the supplemental guidance.

1. Problem statement: Define what the problem or issue your jurisdiction seeks to resolve with supplemental funds during the project period. Limitations or "root causes" that have led to the current problem/issue may be included.

2. Baseline Capacity: Specify the current baseline capacity in this area, such as current percentage of staff who can don/doff PPE per CDC guidelines.

3. Outcomes: Define the expected outcomes that align to resolving the problem or closing the gaps. The outcomes should define what changes or improvements will occur to the public health/healthcare systems or to the community such as awareness, knowledge, attitudes, skills, opinion, behavior, policies, and health improvement. Ideally, outcomes should link to planned activities, quantify the targeted change, and include an estimated timeline for achieving the change. Awardee can insert as many outcomes as needed.

4. Planned activities: List the intermediate activities Awardee will undertake, including tasks and estimated start and end dates that will lead to the associated outcome and contribute to resolving the identified issue or problems. Awardees can insert as many planned activities as needed.

5. Proposed outputs: List the proposed outputs that will be produced as a result of the planned activities, such as a plan, a training curriculum, or a tracking system database.

**Work Plan**

**Recipient Activity 1:** Community Preparedness

**Recipient Activity 1 Problem Statement (Please limit to 500 characters)**

In Mariposa County there is not a current risk assessment specific to infectious disease including Ebola Virus. The most current all-hazards risk assessment is not comprehensive for determining the prioritized risk for infectious disease (including Ebola Virus Disease) in Mariposa County. Mariposa County Health Department understands that without recognizing Ebola as a risk, the ability to fund and allocate time and training to preparation and response beyond initial funding will be difficult.

**Recipient Activity 1 Baseline Capacity (Please limit to 500 characters)**

There is not a current risk assessment specific to infectious diseases including Ebola Virus.

**Outcomes (Please limit to 500 characters)**

Develop and apply a risk assessment for infectious disease that is consistent with the Excel spreadsheet “Health Hazard Assessment and Prioritization Tool.” The risk assessment will include Ebola and other infectious diseases of public health importance.

Risk assessment information will be used to define, prioritize, and implement ongoing activity, training, and preparedness for Ebola Virus Disease response in both current and future planning.

**Proposed Outputs Associated to Outcomes (250-character limit each; please add rows as needed)**

1. Completed Infectious Disease Risk Assessment.
Recipient Activity 2: **Public Health Surveillance and Epidemiological Investigation**

### Recipient Activity 2 Problem Statement (Please limit to 500 characters)
During the recent Ebola situation the Mariposa County Health Department worked with multiple agencies in Mariposa County to hastily develop several protocols for the various levels of response personnel to enhance surveillance, recognition and detection of Ebola Virus Disease in Mariposa County. The protocols and procedures were effective when tested during the November 2014 Statewide Medical and Health Exercise. However, they are not sufficient for ongoing recognition and response.

### Recipient Activity 2 Baseline Capacity (Please limit to 500 characters)
Mariposa County’s standard surveillance and epidemiological investigation capabilities are used routinely for recurring infectious disease where response is routine and automated, i.e., through laboratory reporting. Ebola Virus Disease, however, presents an atypical situation in that the frequency is very limited. If Ebola Virus Disease it is not a perceived disease threat, awareness and recognition by Health Care Providers may decrease.

### Outcomes (Please limit to 500 characters)
Contract with a post graduate public health intern to assess and evaluate the current Mariposa County planning and protocol for public health surveillance and epidemiology based on Capability 13 measureable standards within the “Public Health Preparedness Capabilities: National Standards for State and Local Planning.” The intern will work with the PHEP Coordinator and Mariposa County Health Officer to develop and prepare expected Standard Operational Procedures for routine surveillance that incorporates Ebola Virus Disease into routine surveillance within the Mariposa County Health Care infrastructure.

1. Improvement Plan developed based on assessment and evaluation.

Recipient Activity 3: Public Health Laboratory Testing

Recipient Activity 3 Problem Statement (Please limit to 500 characters)
Due to the biological threat significance of Ebola Virus Disease, the Mariposa County Health Department was required to contract with a different shipping company than is used on a routine basis. There was not enough time in the November 2014 Statewide Exercise to test the packaging and shipping technique required for rule out Ebola specimens.

Recipient Activity 3 Baseline Capacity (Please limit to 500 characters)
There are currently no public health laboratories in Mariposa County’s jurisdiction.

Outcomes (Please limit to 500 characters)
Contracted public health intern will develop an SOP based on shipping company requirements, provide training to staff and evaluate a functional exercise that tests the packaging and shipping of an Ebola Virus specimen received from a local hospital.

Planned Activities for Outcomes (250-character limit each; please add rows as needed) Estimated Timeframe
1. Review and train staff on appropriate packaging and shipping requirements. Start: JAN 2016
   End: APR 2016
2. Evaluate the packaging and shipping of an Ebola specimen during a functional exercise. Start: APR 2016
   End: APR 2016

Proposed Outputs Associated to Outcomes (250-character limit each; please add rows as needed)
1. Understanding and functional ability of staff to prepare and ship Ebola specimens to appropriate laboratories.

Recipient Activity 4: Non-Pharmaceutical Interventions

Recipient Activity 4 Problem Statement (Please limit to 500 characters)
Tracking and monitoring persons potentially exposed to Ebola virus after their return from Africa presented unique challenges for Mariposa County – both in legal authority and in infrastructure to assure monitoring was consistent. Plans were developed hastily to manage the situation at hand and do not reflect an ongoing standard operating procedure given the dynamic changes within the community’s perception and epidemiological perception of risk.

Recipient Activity 4 Baseline Capacity (Please limit to 500 characters)
Non-pharmaceutical Interventions specific to Ebola were developed within the general Incident Action Plan and included house quarantine and transporting a suspect patient to a facility capable of monitoring the patient in isolation while awaiting tests.
### Outcomes (Please limit to 500 characters)
Contract with a post graduate public health intern to assess and evaluate the current Mariposa County planning and protocol for non-pharmaceutical interventions based on Capability 11 measurable standards within the “Public Health Preparedness Capabilities: National Standards for State and Local Planning.” The intern will work with the PHEP coordinator and the Mariposa County Health Officer to develop and prepare expected Standard Operational Procedures for routine non-pharmaceutical interventions for exposed and/or infectious persons.

1. Improvement Plan developed based on assessment and evaluation.
2. Standard Operational Procedures for non-pharmaceutical interventions for suspect and actual Ebola Virus Disease cases. SOP will be tested during an exercise.

### Recipient Activity 5: Responder Safety and Health

#### Recipient Activity 5 Problem Statement (Please limit to 500 characters)
Just-In-Time training was implemented for the local response to the Ebola situation. Due to the morphing needs of the applicable Personal Protective Equipment (PPE), Just-In-Time training was implemented twice. Of necessity, plans were developed hastily to manage the situation at hand and do not reflect an ongoing standard operating procedure given the dynamic changes within the PPE guidance.

#### Recipient Activity 5 Baseline Capacity (Please limit to 500 characters)
There are sufficient PPE and basic guidance on hand to provide protection for public health responders tasked with local public health responsibilities.

### Outcomes (Please limit to 500 characters)
Contract with a post graduate public health intern to assess and evaluate the current Mariposa County planning and protocol for Responder Safety and Health based on Capability 14 measurable standards within the “Public Health Preparedness Capabilities: National Standards for State and Local Planning.” The intern will work with the PHEP Coordinator and the Mariposa County Health Officer to develop and prepare expected Standard Operational Procedures for determining what public health response roles will be required to don and doff PPE in response to a suspect and/or actual Ebola case; develop a standard operational procedure for donning,

**Recipient Activity 6:** Emergency Public Information and Warning/Information Sharing

**Recipient Activity 6 Problem Statement (Please limit to 500 characters)**
The recent Ebola situation was challenging due to the public’s alarm and perceived threat. The event was largely media driven and difficult to diffuse with accurate, clear messages. The Mariposa County Health Department did not have the benefit of time to develop Ebola specific template information prior to the incident and created all outreach hastily.

**Recipient Activity 6 Baseline Capacity (Please limit to 500 characters)**
The infrastructure to send information to the community is significant. The decision to send the information has, in the past, been specific to the Health Director’s direction. The information sent can be used as templates for future Ebola situation response.

**Outcomes (Please limit to 500 characters)**
Contract with a post graduate public health intern to assess and evaluate the current Mariposa County emergency public information and warning capability based on Capability 4 measurable standards within the "Public Health Preparedness Capabilities: National Standards for State and Local Planning." The intern will work with the PHEP Coordinator and the Mariposa County Health Officer to develop and prepare template Standard Operational Procedures for releasing information related to three basic Ebola Virus Disease situations: suspected case, actual case, and perceived threat.

Recipient Activity 7: Medical Surge

Recipient Activity 7 Problem Statement (Please limit to 500 characters)
The needs of one suspect Ebola case presenting to the local facility would create a medical surge situation due to the intensity of significant resource demand and very limited resources locally. Planning and preparedness are essential to mitigate and effectively use the limited resources available.

Recipient Activity 7 Baseline Capacity (Please limit to 500 characters)
Mariposa County Health Department is capable of providing resources and supporting medical surge operations in the Mariposa County Operational Area. Ebola is a high profile situation that will require additional consideration and planning at the Healthcare Coalition level for assured readiness and response in the entire Operational Area.

Outcomes (Please limit to 500 characters)
Collaborate with the Mariposa County Healthcare Coalition to assess and evaluate current policies and procedures specific to Medical Surge secondary to a suspect and/or actual Ebola case(s). Assist in developing an improvement plan specific to response by the Mariposa County healthcare providers.

      2. If the Awardee fails to perform any material requirement of this Award or defaults in
         performance of this Award.

M. Department may, at its discretion, require the Awardee to cease performance of certain components of the Work Plan as designated by Department and complete performance of other components prior to the termination date of the Award.

3. Avoidance of Conflicts of Interest by Awardee

A. Department intends to avoid any real or apparent conflict of interest on the part of the Awardee, sub-Awardees, or employees, officers and directors of the Awardee or sub-Awardees. Thus, Department reserves the right to determine, at its sole discretion, whether any information, assertion or claim received from any source indicates the existence of a real or apparent conflict of interest; and, if a conflict is found to exist, to require the Awardee to submit additional information or a plan for resolving the conflict, subject to Department review and prior approval.

B. Conflicts of interest include, but are not limited to:

the Award would allow for private or personal benefit or for any purpose that is contrary to the purposes, goals and objectives of the Award.

2) An instance where the Awardee’s or any sub-Awardee’s employees, officers, or directors use their positions for purposes that are, or give the appearance of being, motivated by a desire for private gain for themselves or others, such as those with whom they have family, business or other ties.

C. If Department is or becomes aware of a known or suspected conflict of interest, the Awardee will be given an opportunity to submit additional information or to resolve the conflict. An Awardee with a suspected conflict of interest will have five (5) working days from the date of notification of the conflict by Department to provide complete information regarding the suspected conflict. If a conflict of interest is determined to exist by Department and cannot be resolved to the satisfaction of Department, the conflict will be grounds for terminating the Award. Department may, at its discretion upon receipt of a written request from the Awardee, authorize an extension of the timeline indicated herein.

B. BACKGROUND
This document describes the application process for Local Health Departments (LHDs) to apply for funds available through the following federal funding announcements:

- Governing Documents - California Health and Safety Code, Section 101319, 131058, and 131085.

C. AWARD TERM

E. LHD AND LABORATORY TESTING/CAPACITY FUNDS
- The Local Allocations Table (Attachment B) displays allocations for each LHD.
In addition, CDPH has allocated $1 million in local funding to enhance laboratory capacity for Ebola Reverse Transcription-Polymerase Chain (RT-PCR) and other infectious disease testing across the State. Public Health Laboratories that are currently Laboratory Response Network-Biological (LRN-B) certified may apply for funding to establish, maintain or enhance laboratory capacity for conducting Ebola testing. Budget activities needed to develop capacity to sustain existing capacity.

F. CAPABILITIES-BASED PLANNING APPROACH
LHDs will use PHEP funds to build and sustain capability development under the allowable Capabilities as identified in the federal funding announcement including the associated planning, personnel, equipment, training, exercises, and healthcare coalition development to assure readiness and response capability to respond to EVD within the community. See PHEP Capabilities below for links.

PHEP Capabilities

CDC allows the following Capabilities to be addressed under Ebola Supplemental Funds:
- Community Preparedness;
- Public Health Surveillance and Epidemiological Investigation;
- Public Health Laboratory Testing;
- Non-Pharmaceutical Interventions;
- Responder Safety and Health;
- Emergency Public Information and Warning/Information Sharing; and
- Medical Surge.

G. LABORATORY TESTING/CAPACITY FUNDING CRITERIA
Currently, there are four public health laboratories (PHLs) certified to perform Ebola RT-PCR testing in California, including the CDPH Viral and Rickettsial Diseases Laboratory (Richmond, CA), Sacramento County, Los Angeles County and Orange County. The intent of the available funding for laboratory preparedness is to increase the number of PHLs capable of testing for Ebola RT-PCR with a focus on enhancing geographic distribution of laboratories to serve rural areas and assessment hospitals that will be identified in the State. Selection for LHDs for Ebola Supplemental laboratory funding will be prioritized based on the following criteria:
• A public health laboratory located greater than 1-2 hours driving time from a PHL currently able to conduct Ebola RT-PCR testing.
• Proximity of the PHL to an identified/proposed jurisdiction with an assessment hospital.
• Jurisdictions with an Ebola Treatment hospital but without a PHL that is able to conduct Ebola RT-PCR testing will be given higher priority. PHLs near the currently certified labs may be considered for funding to enhance Ebola/infectious disease capability within a region, on a case-by-case basis to enhance overall capacity within the region/geographic area.
• While the highest priority for this funding is to expand current capacity, PHLs with current capability for Ebola RT-PCR testing may apply for funding to sustain and/or enhance current Ebola RT-PCR and other infectious disease capability and capacity.

H. PRIORITIES IDENTIFIED BY CDPH AND LOCAL LEADERSHIP INCLUDING COUNTY HEALTH EXECUTIVES ASSOCIATION OF CALIFORNIA AND CALIFORNIA CONFERENCE OF LOCAL HEALTH OFFICERS

1. Public Health activities:
   • Build local public health capacity and capability for response to infectious diseases, with a focus on EVD, addressing the capabilities as stated in the PHEP Supplemental for Ebola Preparedness and Response Activities grant guidance, including:
     o Community Preparedness;
     o Public Health Surveillance and Epidemiological Investigation;
     o Public Health Laboratory Testing;
     o Non-Pharmaceutical Interventions;
     o Responder Safety and Health;
     o Emergency Public Information and Warning/Information Sharing; and
     o Medical Surge.
   • Train LHD staff including non-nursing allied staff to assist with surveillance and epidemiologic investigations, including basic contact investigation and tracing, to provide surge capacity at the local level.
   • Conduct active monitoring and direct active monitoring of travelers from Ebola-affected countries. Jurisdiction will develop/maintain a written plan, protocol, and/or procedure for traveler monitoring, including all elements as defined in the CDPH document “Planning for and Management of Travelers from Ebola-Affected Countries and U.S. Ebola Case Contacts for Local Health Departments” (November 17, 2014) and other CDC recommendations for traveler monitoring.
• Enhance hospital readiness, capability, and capacity for management of suspected/confirmed Ebola cases at all levels, including Ebola Frontline, Assessment, and Treatment hospitals and community-based (e.g., at home) quarantine and isolation.
• Enhance/implement the CalREDIE Provider Portal within the jurisdiction to allow local providers, especially Ebola treatment and assessment hospitals/infection control, direct entry into the system for efficient and timely reporting of Ebola suspected/confirmed cases and other infectious diseases and the monitoring/reporting of healthcare workers post Ebola patient care.

2. EMS related activities:
• Develop EMS safety and health guidance, protocols, and procedures for transport of suspected/confirmed cases of Ebola and other infectious diseases.
• Conduct training for EMS personnel for EVD and other infectious disease transportation, including proper use, donning, and doffing of PPE, interfacing with healthcare facilities, decontamination of the rigs, and follow up monitoring should a case be confirmed for EVD.
• Conduct exercises that test coordination, communication and capability to safely and effectively transport suspect/confirmed Ebola cases, and other infectious disease cases, within and across jurisdictions, including State and local and public health and medical (healthcare) partners.
• Improve labor intensive emergency medical dispatch systems including consideration/implementation of new pre-arrival software and other enhancements to the dispatching system.

I. REQUIRED DOCUMENTATION
• Work Plan - Complete the PHEP Ebola Supplemental Fund Work Plan Template (Attachment C) for required program activity descriptions, outcomes, and outputs. Work Plan instructions are included in the template.
• Budget – Complete Budget Template Attachment E; instructions are included (Attachment E).
• Signed Non-Supplantation Form (Attachment F)
• Signed Letter of Acceptance (Attachment G)
• Signed Agreement – The Agreement will include only the total funding available for the 18 month project period (upon approval of Work Plan and Budget).

Note: The Work Plan and Budget are separate documents and can be revised based on approval from CDPH and will not require an amendment to the Agreement. CDPH encourages LHDs to inform the Board of Supervisors that the Agreement indicates an
acceptance of the funding for the allowable purposes for EVD preparedness and response activities.

J. APPLICATION WORK PLAN AND BUDGET SUBMISSION

Each LHD must submit all required application documents no later than April 1, 2015. If a LHD does not submit a complete application by April 30, 2015, CDPH may reallocate the associated funds to other LHDs. CDPH may grant an extension on a case-by-case basis for extreme circumstances (e.g., real events).

1. Submission Instructions:
   - Email your completed Work Plan and Budget templates to EBOLAFUNDS@cdph.ca.gov
   - Email Subject Line: Application Documents – [LHD Name].
   - In the body of the email, briefly identify the submitted documents, e.g. “Work plan and budget for PHEP Ebola.”

EPO will respond to each application email. The response email will include the following:
   - Application documents received in the email.
   - All application documents received to date.

2. Important Submission Notes:
   - Do not send your application documents via standard or express mail. EPO only accepts applications via email. Upon receipt of application documents via standard or express mail, EPO will contact the LHD and request resubmission via email.
   - Do not include non-application documents with your application submission email, e.g. do not include budget revisions or invoices. This is a common source of lost or misplaced documents.

K. SIGNED EBOLA AGREEMENT

Upon receipt of the signed Supplemental Funding for Ebola Preparedness and Response Agreement, CDPH will:
   1. Acknowledge receipt via email.
   2. Review and sign the Agreement.
   3. Return at least one copy of the signed Agreement.
   4. Begin processing the 1st quarter payment (assuming the LHD has met all other payment criteria).

Important Note: CDPH cannot issue a 1st quarter payment until after it has received a signed Agreement.
3. Extension Requests:
CDPH must receive extension requests for submittal of the signed Agreement prior to the due date provided in the approval email. Extension requests must include all of the following:
- The LHD Health Officer or Health Executive signature.
- Date to which the extension is requested.
- A copy of the Board of Supervisor’s agenda showing the Ebola Supplemental Fund Agreement as an action item.

4. Submission Instructions:
CDPH requires only one signed original. Local Entities requesting signed originals (for CDPH to sign and return) must submit extra copies equal to the number requested.

5. What to Send:
The minimum package of signed documents includes the following:
- **Two** Signed Award Agreements with original signatures (upon CDPH approval of Work Plan and Budget)
- **Two** Certificate of Lobbying (Exhibit F) with original signatures
- **One** official document accepting this Contract and authority to sign; for example,
  - Board of Resolution,
  - Order,
  - Motion, or
  - Minutes
- **One** Non-Supplantation Form with original signature.
- **One** Letter of Acceptance.

6. How to Send:
CDPH strongly recommends using overnight or express mail. Standard US Postal service (and certified mail) deliveries arrive in the CDPH mailroom. Historically, Comprehensive Agreements sent via standard mail are subject to a chance of inadvertent loss or misrouting. Clearly label items sent via the US postal service to avoid misrouting and delays.

   - CDPH will review and approve Work Plans and Budgets.
   - CDPH will informally contact the LHD (by email or phone) to resolve any potential issues.
   - If CDPH is unable to resolve issues informally, CDPH will formally request additional information or revisions via email. LHDs will have 5 working days to respond. After 5 working days, CDPH will send a follow-up letter to the Local Health Officer and Local Health Executive.

M. STATE AND FEDERAL REPORTING REQUIREMENTS:
Awardee is required to provide activity reports every six months on Work Plan activities and expenditures. CDPH will provide reporting templates at a later date.
