RECOMMENDED ACTION AND JUSTIFICATION:

The Planning Commission recommends adoption of a resolution approving the project with the recommended findings, including a finding that the project is exempt from environmental review. Waive the first reading and introduce an Ordinance approving the project’s changes to the general plan land use map and the county’s official zoning map.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

In December 2003, the Mariposa County Board of Supervisors, upon recommendation of the Agricultural Advisory Committee and the Planning Commission, approved the applicant’s request to enter into a Williamson Contract for the subject property. The contract has been executed and recorded with the Mariposa County Recorder’s Office.

The Board’s approval gave the applicant six-months to process the “companion” General Plan / Zoning Amendment (GPZA) application from Mountain General to Agricultural Exclusive (AE). The AE zoning is the required zoning for lands under Williamson Contract.

The project under consideration now is such GPZA application.

ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:
There are no alternative zoning designations for property held in a Williamson Contract. If the zoning is not changed, the property would need to be removed from Williamson Contract Lands.

ORDINANCE No. 1005 EXHIBIT A

Pursuant to Mariposa County Zoning Ordinance, Section 17.128.050, the following Findings are made:

1. That such an amendment is in the general public interest, and will not have a significant adverse affect on the general public health, safety, peace, and welfare;

   a. Through The Land Conservation Act (Williamson Act), the State of California encourages commercial agricultural to occupy lands suited to such enterprises in order to maintain and enhance this type of economic resource of the state.

   b. Commercial agricultural uses are common in Mariposa County and permitted to occur on most land use designations.

   c. The Agricultural Exclusive zoning district includes provisions that require discretionary review for certain uses that by their nature may require measures to reduce impacts to less than significant.

2. That such an amendment is desirable for the purpose of improving the Mariposa County general plan with respect to providing a long-term guide for county development and a short- term basis for day-to-day decision-making;

   a. The land use designation of Agricultural Exclusive is necessary to allow for the property to be placed under a rolling 20-year contract with the County for agricultural uses. This improves the plan by providing long-term guidance on the use of the property in a manner consistent with the desired land use of the area.

   b. The requested zoning designation will also provide guidance with respect to day-to-day decision-making.

3. That such an amendment conforms to the requirements of state law and county policy;

   With respect to notice, hearings and findings requirements, the project was reviewed in accordance with state law and county policy.
4. That such an amendment is consistent with other guiding policies, goals, policies, and standards of the Mariposa County general plan;

The Land Conservation Act promotes the preservation and development of agricultural lands, as encouraged by the Conservation Element. The Open Space Element confirms the importance of maintaining the viability of the agricultural industry for Mariposa County, and results in the execution of a Land Conservation Act contract, which is a 20-year commitment to agriculture and open space uses for the site. The preserves are consistent with the General Plan. This finding is made in accordance with Section 51234 of Government Code.

5 In the case of an amendment to the zoning classification on an individual parcel or General Plan Land Use Map:

a. the subject parcel is physically suitable (including, but not limited to access, provision of utilities and infrastructure, compatibility with adjoining land uses, and absence of physical constraints) for the requested land use designation and the anticipated land use development; and

The proposal meets the minimum dimensional requirements of the Agricultural Exclusive zone, has access to Hunter's Valley Road, has been used over the last three years for commercial agricultural use and is compatible with adjacent uses and land use designations (Public Sites – BLM (public grazing land) and Mountain General (used for ranching)).

b. The proposed zoning is logical and desirable to provide expanded employment opportunities, or basic services to the immediate residential population or touring public. (Ord. 912 Sec.II, 1997; Ord. 704 Sec.1, 1988).

The proposal is to maintain commercial agricultural uses on the property for a minimum period of 20-years, which is extended automatically each year until the property owner notifies the county and state of his/her intent to terminate the contract after 20-years.
