SENIOR ADMINISTRATIVE ANALYST

DEFINITION
Under general direction, to perform a wide variety of administrative and analytical support duties, generally for a deputy department head or higher; to direct and manage assigned special projects and programs such as the County’s economic development, community development, contracts and grants administration, financial analysis and budget development, human resources, community engagement and/or dealing with housing issues; to coordinate activities and input on assigned projects from County management, staff, the community, and other organizations; to provide professional support in other assignments as needed to meet the mission of the organization; and, may provide direct and/or indirect supervision to lower level personnel. The work mainly involves the gathering, interpretation, and development of options, making recommendations, and reporting data dealing with complex problems, and includes those programs that deal with financial analysis and accounting, community/business involvement/outreach, human resources, program management, and surveys/studies.

DISTINGUISHING CHARACTERISTICS
Senior Administrative Analyst is the expert level in the series that is responsible for those highly technical assignments requiring focused experience in a specialized subject area, rather than general municipal administration and analytical support. Incumbents in these positions are assigned significant responsibilities at the expert level that require, depending upon the area assigned, highly specialized knowledge, skills, experience, and the ability to exercise independent judgment in the performance of their duties. This classification is distinguished from Administrative Analyst II in that it performs higher-level, complex administrative and analytical work with a very high degree of independence and responsibility and/or supervises more than three lower level employees.

The evaluation of the most difficult and complex duties is directly related to department size and complexity. The most complex and larger departments are characterized by:

♦ A complex budget involving numerous contract, revenue, and expenditure accounts; and separate budget funding such as enterprise funds, capital improvement funds, and federal and state fiscal interfaces, which require both County and non-County budget and fiscal work.

♦ Interaction with other major governmental or private entities that is frequent and ongoing, and directly impacts the County.

♦ An exception to the larger/more complex department criteria is for when the work of a smaller department’s Analyst is complex/difficult and has significant County-wide implications.
On the other hand, less complex, smaller departments where the Senior level is not appropriately allocated are characterized by:

- An administrative unit of fewer positions with three or less direct reports.

- A budget involving fewer contract, revenue and expenditure accounts, and which requires little if any non-County budget and fiscal work.

- Interaction with other governmental or private entities is limited and impacts only the department or has only limited County-wide impact.
