RECOMMENDED ACTION AND JUSTIFICATION:  (Policy Item: Yes: X No: )
Adopt this Resolution establishing a policy on PC Software and the Federal Copyright Act as follows:

Commencing upon adoption of this Resolution, County officers and employees are prohibited from making unauthorized copies of Personal Computer software. The software manufacturers license shall be adhered to. Where necessary, because of restrictions in the manufacturers license agreement, a separate version of the program or a license must be purchased for each individual system that the program is installed on. Department heads and supervisors shall inform all employees, by posting a copy of this Resolution in a prominent space in the work area, that unauthorized copying of software is a violation of Title 17 of the United States Code and could subject the employee and/or the County to civil or criminal penalties.

BACKGROUND AND HISTORY OF BOARD ACTIONS:
As a result of the County becoming involved with computers and word processing on a piece-meal basis, employees have not been properly educated on the importance of adhering to personal computer software licenses. Employees have not understood that when you buy a program, you are actually buying a license to use that program. The license may contain restrictions which can limit use to only one computer. The board has not previously had a policy relative to software license agreements.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:
Do not state a policy, which could make the County liable to civil and criminal penalties should a software publisher ever win a judgement that the County allowed employees to violate the U.S. Code as it applies to software copyright.
