PROJECT FINDINGS

FOR

Land Conservation Act No. 2016-153

This project is reviewed in accordance with Mariposa County Resolution No. 10-150 implementing the Land Conservation Act in Mariposa County and California Government Code Section 51257 (Williamson Act Law), the following findings are made:

1. FINDING: The project is found to support, accomplish, or have no effect on the goals, policies, and standards of the General Plan as a whole and will not obstruct the achievement of the Plan's purpose.

The Land Conservation Act promotes the preservation and development of agricultural lands, as encouraged by the Agricultural Element and its emphasis on preserving agricultural lands (Section 10.1.01 of The General Plan), and maintaining the rural character of the county (Section 10.1.04 of The General Plan). The Conservation and Open Space Element confirms the importance of maintaining the open space nature of the county. This project will result in the execution of Land Conservation Act contracts, which are 20 year commitments to agriculture and open space uses for the site. The preserve is consistent with the General Plan. The current and past use of the property is for agricultural purposes. This finding is made in accordance with Section 51234 of Government Code.

2. FINDING: The contract exceeds the minimum size (160 acres) established by the Board of Supervisors for an agricultural preserve. The use of this property is for cattle grazing, or other Agricultural Production Uses or Compatible Uses as specified in the contract.

3. FINDING: All of the land will be under the new contract; thereby increasing new LCA contracted lands in the County by 349.5 acres.

4. FINDING: The contract will be large enough to sustain their agricultural use (dryland grazing) at 349.5 acres.

5. FINDING: The new LCA contract will not compromise the long-term agricultural productivity of the nearby lands as the LCA contracted lands requires agricultural productivity in conformance to Board of Supervisors Resolution 10-150 over the existing applicable zoning of Agriculture Exclusive. The land will continue to be used for cattle grazing.
6. **FINDING:** The inclusion of this land is not likely to result in the removal of adjacent land from agricultural use. There is no evidence to support a finding that this new contract will have any effect on any adjacent agricultural uses.

7. **FINDING:** The approval of the Williamson Act Contract is based upon review of the project specific and site specific details of this case, as well as the needs of the applicants.

8. **FINDING:** This project is Categorically Exempt based on the following: Class 17; Section 15317, Open Space Contracts or Easements, CEQA Guidelines.

**Zoning Amendment Findings:**

1. **FINDING:** The amendment is in the general public interest, and will not have a significant adverse effect on the general public health, safety, peace, and welfare.

   The proposed zone change of the 349.5 acre acres is required for zoning conformance per the Mariposa County's Rules of Procedure to Implement the California Land Conservation Act of 1965 (Board of Supervisors Resolution 10-150), Section III Land Conservation Act Contracts, C. 2. “Zoning Restrictions”, that requires lands under contract to be in Agriculture Exclusive Zone. The public will benefit by the appropriate zone (Agriculture Exclusive) being applied to the site to support Land Conservation Act where no physical change is proposed or required, and therefore, no potential adverse effects on the general public health, safety peace and welfare will result.

2. **FINDING:** The amendment is desirable for the purpose of improving the Mariposa County General Plan with respect to providing a long term guide for county development and a short term basis for day-to-day decision making.

   This amendment ensures that the uses and activities and are conforming to the zone. The Agriculture Exclusive zone is listed as being consistent with the applicable Natural Resources land use designation.

3. **FINDING:** That amendment conforms to the requirements of state law and county policy.

   This project has been processed in accordance with State law. According to State law, General Plans take precedence over zoning ordinances and one of the functions of the zoning ordinance is to implement the General Plan. This amendment conforms to the requirements of State law and county policy by aligning the zoning map and the General Plan land use and by ensuring consistency between Mariposa County’s Rules of Procedure to Implement the California Land Conservation Act of 1965 (Board of Supervisors Resolution 10-150), Section III Land Conservation Act Contracts, C. 2. “Zoning Restrictions” and regulatory documents where the applicable zoning is required to be Agriculture Exclusive. **Pursuant to review by the Agricultural Advisory Committee, the property is bona fide agricultural land appropriate for the Agriculture Exclusive Zoning district.**
4. **FINDING:** The amendment is consistent with other guiding policies, goals, policies, and standards of the Mariposa County General Plan.

The amendment implements the General Plan by making the uses conforming to zoning and zoning conforming to the General Plan Land Use and Mariposa County's Rules of Procedure to Implement the California Land Conservation Act of 1965 (Board of Supervisors Resolution 10-150), thereby meeting the standards within County Code titles consistent with those contained in the General Plan. The amendment is consistent with the guiding policies, goals, policies, standards and implementation measures of the General Plan.

5. **FINDING:** In the case of an amendment to the zoning classification on an individual parcel or General Plan Land Use Map,

a. the subject parcel is physically suitable (including, but not limited to access, provision of utilities and infrastructure, compatibility with adjoining land uses, and absence of physical constraints) for the requested land use designation and the anticipated land use development; and

b. the proposed zoning is logical and desirable to provide expanded employment opportunities, or basic services to the immediate residential population or touring public.

The 349.5 acre area proposed for Agriculture Exclusive Zone is physically suitable for the ongoing agricultural use as rangeland (grazing lands) for livestock. The provision of utilities, infrastructure and land use compatibility is established at the site.

The proposed zoning is logical as it reflects the ongoing rangeland livestock grazing uses at the site and brings the subject lands into further conformance through the Agriculture Exclusive zone which provisions support the agricultural activities as a permitted use.

6. **FINDING:** This project is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15060(c)(2), (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and Section 15061(b)(3) (there is no possibility the activity in question may have a significant effect on the environment), CEQA Guidelines.

The proposed zone change from the Mountain General Zone and Mountain Home Zone to the Agriculture Exclusive Zone is to conform to requirements of the Mariposa County's Rules of Procedure to Implement the California Land Conservation Act of 1965 (Board of Supervisors Resolution 10-150). No improvements are proposed or approved as a part of the project. Any future development application would undergo environmental review as applicable at the time of application and any future changes would undergo its own permitting process in addition to the land use permitting process required.
