RECOMMENDED ACTION AND JUSTIFICATION: (Policy Item: Yes No X)

Resolution waiving formal bidding procedures and approving funding for the purchase of a new water well pump and associated components for the Coulterville CSA.

The result of a recent pump performance evaluation has indicated clearly that the water well pump and associated components need to be replaced. The water well pump and components replacement would be paid out of the CSA Utility Capital Fund. The Coulterville CSA Advisory Board recommended this action at their February 15, 1995, meeting. The pump is performing at less than 50% of its rated capacity; thereby, causing the CSA an estimated 50% higher electric bill.

Authorization would allow timely replacement to occur, resulting in operational cost savings for the CSA and prevention of a eminent water well pump failure, which would result in an emergency replacement.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

As part of the normal system evaluation procedures now being implemented in Special Districts, the performance level of the water well pump was found to be deficient enough to warrant immediate replacement. This pump was replaced nearly eight years ago and is the only source of water for the public water supply in Coulterville. Pumping costs have recently begun to exceed the life-cycle costs of a new, more efficient pump.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

Failure to authorize would result in increased expense for the operation of the water well pump to the CSA and possible pump failure resulting in an emergency replacement situation.
