RECOMMENDED ACTION AND JUSTIFICATION: (POLICY ITEM: YES  NO: X)

Approve a resolution authorizing County participation in Medi-Cal acute psychiatric inpatient hospital consideration.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

In June 1994 the Board of Supervisors authorized a Letter of Intent for the County to develop a Medi-Cal Managed Mental Health Services Program. (Resolution No. 94-257) This program will be managed by KingsView Corporation under contract with the County. As our contracted mental health provider, KingsView accepts full responsibility for managing the program within the allocated funds and responsibility for additional costs should they exceed the allocated amount. (Please see attached letter) This phase of the process includes transferring funds and responsibilities for authorizing and funding Medi-Cal acute psychiatric inpatient services from the State Department of Mental Health to the County. The funds for Mariposa for the period January 1, 1995 through June 30, 1995 are $25,918. which when received by the County will be transferred to KingsView who will assume responsibility for managing this program within the amount allocated. County participation requires this resolution confirming that the County accepts this allocation as payment in full from the State; assumes responsibility for authorization and payment of the Medi-Cal match for all medically necessary acute psychiatric inpatient hospital services for Medi-Cal beneficiaries from this County; that the County has a public planning process involving appropriate consumers and stakeholders and that the County agrees to submit additions to the Quality Management Plan by January 1, 1995 which complies with State requirements. The County has the required planning process. KingsView is currently updating their Quality Management Plan which will be submitted by January 2. KingsView accepts this allocation as payment in full for the specified period and assumes full responsibility for any costs which exceed the allocation. The County authorizes the State to offset County mental health realignment funds in accordance with State payments of inpatient claims.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

Do not participate - State would appoint an outside source to provide specialty mental health services. This would create an inefficient, dual system of services in the County and the County would not have control of an important area of mental health services.

InterOffice Memo

To: Margie Williams
From: Mike Coffield
Date: March 2, 1995
Subject: Amended resolution 94-537

Tom and I have discussed the changes requested by the State. As we suspected, the way that the County (through our contractor Kingsview) will pay our required match on Medi-Cal inpatient hospital costs will be for the State to withhold Realignment funds in the amount of the required match. Accordingly, the additional language merely describes how the County's commitment will be met and it does not impose any additional requirement. Since this is not a substantive change to the prior Board commitment, I believe we can allow the amended resolution to be sent without further Board action. Per his note to me, Jeff Green concurs.

94-537
Tom Archer  
Director of Human Services  
Mariposa, Ca. 95338

December 5, 1994

Dear Tom:

As you know Medi-Cal In Pt. Consolidation begins January 1, 1995 as part of the State's effort towards total Managed Care of Medi-Cal funds for Mental Health. In this initial phase the state funding portion of Medi-Cal In Pt. (50%) is given back to the counties to use for In Pt. Psychiatric care. Our portion is $25,918 for the last 6 months of this fiscal year. To make this transfer possible the Board of Supervisors needs to authorize it.

As the sole contract provider of mental health services for Mariposa County, Kings View is responsible for all costs that are agreed to within our contract with the county. At the present time this includes, among many areas, both State Hospital and local In Pt. Psychiatric costs. Should the Board of Supervisors approve this transfer of $25,918 to Kings View, then by contract, we would be responsible for all Medi-Cal In Pt. Hospitalizations Costs, regardless if Medi-Cal hospitalizations costs were higher than $25,918. The concept of Managed Care is to judiciously and effectively manage the funds within the costs. Kings View intends to do this as we have for so many years. If we don't, Kings View suffers the loss, not the county.

I see this new move towards Managed Care as a healthy one as government attempts to better manage its limited funds, while at the same time giving local programs more control over the actual decisions that impact them.

Should you need further information regarding this, I would be happy to provide it.

Sincerely,

Jeff Borski, L.C.S.W.  
Executive Director  
Mariposa Counseling Center
RECOMMENDED ACTION AND JUSTIFICATION: (POLICY ITEM: YES ___ NO: X)

Approve a resolution authorizing County participation in Medi-Cal acute psychiatric inpatient hospital considation.
