SUBJECT: PARKS DEVELOPMENT CAPITAL IMPROVEMENT PROJECTS

Dear Members of the Board:

Included in the Final Budget are Parks Development CIP funds. However, there are no specific projects recommended for this Fiscal Year.

During the last two weeks, severe contamination problems have occurred with the well serving Golden Stag Hall. Fecal Coliform counts have exceeded maximum standards by 500%. The Public Works Department, State Department of Health Services, and knowledgeable parties agree that a new well away from the lower areas of Hornitos is the best solution. The best well site is on County property above town. Cost estimates range from $9,500 (using existing pump/tank) to $11,500 (new pump/tank). The Patrons Club has indicated a willingness to contribute to the project.

If the County would provide materials, the Midpines Booster Club has indicated that they will provide the labor to install a landscaped, covered patio/barbeque area behind the Midpines Community Hall. Material cost is estimated to be $8,100.

Thank you for your consideration of my request.
Hornitos Well Proposal

1. Drill and case well- Estimated well depth 500' @ $8.00 per foot. = $4000.00
2. Trench Plaza Street - Estimated 500' = $2000.00
3. Electrical service to new well by others Estimated $2000.00
4. Installation of pump.
   a. Reuse existing pump, pressure system. Adding pipe and wire @
      $1.77 for pipe, .50 per foot for wire. Labor at $250.00  ~ 1,250
   b. New pump, with new pressure system pipe and wire. $3500.00

"Estimate complete."

11,500 - new pump, etc
9,250 - existing pump, etc

Thank You

Ben Tedrow (General Manager)

Dear Rich:

As per your request, I am sending you the preliminary cost estimate for the Midpines Community Hall Barbecue Patio Master Plan. Please remember that this estimate is very preliminary and based on a design that will no doubt receive much more refinement which will be reflected in the cost.

Concrete flatwork                         $4740.00
Trees and planted area within patio itself  1140.00
Overhead structures (materials only, Fresno prices)  1250.00
Turf and sprinklers for turf area, trees and planted areas within patio area  900.00

Total, rounded                             $8100.00

This figure does not include the following:
Site preparation
Modifications necessary to provide irrigation water to POC Barbecue
Planting or irrigation adjacent to patio area (for example screen firehouse.)

Again, please remember that as this design is reviewed, changed and implemented the above figures will no doubt change. If you have any questions regarding this estimate or the design, please do not hesitate to contact me.

Thank you.

Sincerely,

Katherine Hutmacher, ASLA
Landscape Architect
