RESOLUTION - ACTION REQUESTED 2017-234

MEETING: April 25, 2017

TO: The Board of Supervisors

FROM: Chevon Kothari, Human Services Director

RE: Approve Term Extension Amendment for MHSOAC Mental Health Triage Grant

RECOMMENDATION AND JUSTIFICATION:
Approve Amendment 1 Extending the Term of the Existing Mental Health Triage Grant Agreement 13MHSOAC-TG012 to June 30, 2018; and Authorize the Human Services Director to Sign the Amendment.

This Amendment extends the term to June 30, 2018 but leaves the grant award amount unchanged at $699,428.

The State Mental Health Services Oversight and Accountability Commission (MHSOAC) is extending the term to allow counties to fully expend all available funds. There were delays at the State level in implementing this program in FY13/14, which is why the program term is being extended to use remaining funds through June 30, 2018.

The remaining grant funding will continue to be used to expand and enhance the Department's ability to adequately respond to mental health crisis situations experienced by the residents of Mariposa County.

This grant will not impact the County General Fund.

BACKGROUND AND HISTORY OF BOARD ACTIONS:
The Board approved acceptance of the "Mental Health Services Act Triage Personnel" Grant on June 17, 2013 by Resolution 2014-290.

ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:
If the Board does not approve the amendment extending the term of the grant funds, the existing agreement will end June 30, 2017, and the County will lose any remaining unspent funds.

FINANCIAL IMPACT:
This Amendment extends the term to June 30, 2018 but leaves the grant award amount unchanged at $699,428. The term extension was anticipated and has been included in the requested FY17/18 budget for fund 443. There will be no impact to the County General Fund.

3. Detailed Scope of Work

A. Introduction

As a result of Senate Bill (SB) 82, known as the Investment in Mental Health Wellness Act of 2013, California has an opportunity to use Mental Health Services Act (MHSA) dollars to expand crisis services statewide that are expected to lead to improved life outcomes for the persons served and improved system outcomes for mental health and its community partners. Among the objectives cited in the Mental Health Wellness Act of 2013 is to “expand access to early intervention and treatment services to improve the client experience, achieve recovery and wellness, and reduce costs.” This objective is consistent with the vision and focus for services identified in the MHSA. Improving the client experience, with a focus on recovery and resiliency, in a way that will reduce costs, is the very essence of the MHSA.

B. Background

With MHSA funding, the Mental Health Wellness Act of 2013 is intended to increase California’s capacity for client assistance and services in crisis intervention including the availability of crisis triage personnel, crisis stabilization, crisis residential treatment, rehabilitative mental health services, and mobile crisis support teams. Under the terms of the Mental Health Wellness Act of 2013 there will be two competitive grant opportunities. One grant process will be administered by the California Health Facilities Financing Authority (CHFFA) to fund mobile crisis support teams and crisis stabilization and crisis residential programs. The other grant process, administered by the Mental Health Services Oversight and Accountability Commission (MHSOAC or Commission), provides funding for counties, counties acting jointly and city mental health departments, to hire at least 600 triage personnel statewide to provide intensive case management, which may include Medi-Cal reimbursable targeted case management, and linkage to services for individuals with mental illness or emotional disorders who require crisis interventions. Increasing access to effective outpatient and crisis services provides an opportunity to reduce costs associated with expensive inpatient and emergency room care and to better meet the needs of individuals experiencing a mental health crisis in the least restrictive manner possible.

C. SB 82 Triage Personnel Objectives

Among the specific objectives cited in the Mental Health Wellness Act of 2013 are:

i. Improving the client experience, achieving recovery and wellness, and reducing costs
The level of engagement between a person experiencing a mental health crisis and persons providing crisis intervention triage services are considered critical to the life outcomes for the individual being served and system outcomes for mental health and its community partners.

Triage personnel funded through these grants should be skilled at engaging persons in crisis in a stabilizing, therapeutic, recovery focused manner. Per SB 82, the Commission shall take into account the use of peer support when selecting grant recipients and determining the amount of grant awards. Having lived experience with mental illness either as an individual or family member, may be seen as an added qualification for delivering effective service.

ii. Adding triage personnel at various points of access, such as at designated community-based service points, homeless shelters, and clinics

The availability of triage personnel at various points of access designated throughout the community throughout the day is essential to both improving the client experience and improving timely access to services.

iii. Reducing unnecessary hospitalizations and inpatient days

Reductions in unnecessary hospitalizations are dependent on the availability of programs that serve as alternatives to hospitalization, such as crisis stabilization and crisis residential programs. As mentioned, one resource to expand these services will be available through the grants administered by CHFFA. Because the triage personnel available through the MHSOAC grants are intended to provide immediate, recovery-focused crisis interventions that divert persons from unnecessary hospitalizations to less restrictive treatment settings, they are an essential component for mental health and community crisis response systems.

iv. Reducing recidivism and mitigating unnecessary expenditures of law enforcement

To meet both of these objectives requires collaboration with and participation from partner counties, law enforcement, hospitals, local social networks, mental health and substance use non-profits, foundations and providers of service to various racial, ethnic and cultural groups and low-to-moderate income persons, in developing and delivering services in a community-based, mental health crisis response system.

D. Grantee Work Plan

Grantee shall implement the triage program as described in Grantee’s Triage Grant Application which is attached to this Exhibit A as “Attachment A.1” and incorporated herein by reference.
E. Grant Cycle

Grants are approved for a grant cycle that covers four fiscal years, with funds allocated annually for Year 1 (5 months), Year 2 (12 months), Year 3 (12 months), and Year 4 (12 months). In the discretion of the MHSOAC the grant may be extended for one year if the MHSOAC determines the Grantee has unspent funds.

If the Grantee does not submit the reports listed below by the reporting deadline the MHSOAC may withhold payments of the funds described in Exhibit B:

i. Process Information Report as described in Section “F. Reports”

ii. Encounter Based Information Report as described in Section “F. Reports”

iii. Evaluation of Program Effectiveness as described in Section “F. Reports”
