TO WHOM IT MAY CONCERN:

Gentlemen:

The California Legislature is now considering legislation which would force each county in California (except San Diego County) to join a multi-county regional planning organization. The Santa Barbara County Board of Supervisors and the Santa Barbara County-Cities Area Planning Council have each adopted resolutions opposing such legislation.

Regional Planning Areas, as shown on the attached map, were adopted by the State Planning Advisory Committee on February 26, 1965. The only multi-county planning organizations which have been formed are in the San Francisco Bay Area, the Sacramento Area, and the Los Angeles Area where urban developments have crossed county boundaries. At the same time, a number of single county regional planning organizations similar to the Santa Barbara County-Cities Area Planning Council have been formed by joint powers agreements, and are engaged in regional planning on a county-wide basis.

It is the belief of the Santa Barbara County Board of Supervisors and the Santa Barbara County-Cities Area Planning Council that legislation designed to force all counties into multi-county regional planning organizations might be fatal to existing single-county regional planning organizations, and that single-county regional planning organizations should be encouraged wherever urban developments have not crossed county boundaries.

If you were to adopt a similar resolution it would strengthen this position. Such resolutions should then be forwarded to your State legislators; the Assembly Committee on Local Government, Room 2114, State Capitol, Sacramento, California, 95814; and the Council on Intergovernmental Relations, Room 150, 1400 Tenth Street, Sacramento, California, 95814.

Very truly yours,

H. H. DIVELBISSE
Executive Secretary
