- Self-service machines, such as soda and frozen yogurt machines, are approved for use in this jurisdiction and are sanitized following this schedule:
- Non-food items that may be used by multiple customers, such as menus, must be disinfected between each use or modified to be a single service item, such as a disposable paper menu.
- Utensils and food-ware are properly washed, rinsed and sanitized for an adequate contact time (time required for utensils to be submerged in the sanitizer) OR only single-service utensils and food-ware are used.

### COVID-19 Restaurant Operating Procedures

High contact touchpoints, such as phones, door handles, credit card terminals, etc. are cleaned and disinfected, using a disinfectant effective against Coronavirus, following this schedule:

Disinfection wipes or hand sanitizer (at least 60% alcohol) are provided at customer tables.

Touch free motion detectors are used to dispense soap and paper towels.

Public restrooms are being disinfected every hour.

A team member per shift is designated to oversee/enforce additional sanitization and disinfection procedures, as needed.

The number of employees serving an individual party is limited to one employee, when possible.

Other measures used to prevent unnecessary contact or cross contamination:
