

Mariposa County COVID-19 Vaccination Medical Risk Factor Self-Attestation Form

Effective *Monday, March 15th 2021*, the County of Mariposa will expand eligibility for COVID-19 Vaccines to include people who have health conditions that may result in a higher risk of disease. If you are between the ages of 18 and 64 (or 16+ if receiving the Pfizer vaccine) and have one of the following conditions, you are now eligible to receive COVID-19 vaccine. If you are pregnant regardless of age you are eligible.

For the most complete, up-to-date list of who is eligible for the vaccine, go to: <https://covid19.ca.gov/vaccines/>

High-risk medical conditions (ages 18+, or ages 16+ for Pfizer only) are now eligible:

- **Cancer**, current with weakened immune system
- **Chronic kidney disease**, stage 4 or above
- **Chronic pulmonary disease**, oxygen dependent
- **Down syndrome**
- **Solid organ transplant**, leading to a weakened immune system
- **Pregnancy**
- **Sickle cell disease**
- **Heart conditions**, such as heart failure, coronary artery disease, or cardiomyopathies (but not hypertension)
- **Severe obesity** (Body Mass Index ≥ 40 kg/m²)
- **Type 2 diabetes mellitus** with hemoglobin A1c level greater than 7.5%

OR - If as a result of a developmental or other severe high-risk disability one or more of the following applies:

- The individual is likely to develop severe life-threatening illness or death from COVID-19 infection
- Acquiring COVID-19 will limit the individual's ability to receive ongoing care or services vital to their well-being and survival
- Providing adequate and timely COVID care will be particularly challenging as a result of the individual's disability.

I attest that I have one of the above conditions or an underlying condition or disability that would cause me to have a higher likelihood of a poor outcome should I get COVID-19.
