Project Findings

This project is reviewed in accordance with Mariposa County Resolution No. 10-150 implementing the Land Conservation Act in Mariposa County and California Government Code Section 51257 (Williamson Act Law), the following findings are made:

1. FINDING: The project is found to support, accomplish, or have no effect on the goals, policies, and standards of the General Plan as a whole and will not obstruct the achievement of the Plan’s purpose.

The Land Conservation Act promotes the preservation and development of agricultural lands, as encouraged by the Agricultural Element and its emphasis on preserving agricultural lands (Section 10.1.01 of The General Plan) and maintaining the rural character of the county (Section 10.1.04 of The General Plan). The Conservation and Open Space Element confirms the importance of maintaining the open space nature of the county. This project will result in the execution of a Land Conservation Act contract, which is a 20 year commitment to agriculture and open space uses for the site. The preserve is consistent with the General Plan. The current and past use of the property is for agricultural purposes. This finding is made in accordance with Section 51234 of Government Code.

2. FINDING: The contract exceeds the minimum size (160 acres) established by the Board of Supervisors for an agricultural preserve. The use of this property is for cattle grazing, or other Agricultural Production Uses or Compatible Uses as will be specified in the contract.

3. FINDING: All of the land will be under the new contract; thereby increasing new LCA contracted lands in the County by 573.33 acres (from 758.4 acres) to a total of 1,331.73 acres.

4. FINDING: The contract will be large enough to sustain a commercial agricultural use (dryland grazing) at 1,331.73 acres. Objective evidence has been submitted that the properties have been used for grazing. Review by the AAC did not identify any concerns. The contracted acreage exceeds the minimum 160 acres requirement for grazing.

5. FINDING: The new LCA contract will not compromise the long-term agricultural productivity of the as the LCA contracted lands requires agricultural productivity in conformance to Mariposa County Resolution No. 10-150 over the existing applicable zoning of Agriculture Exclusive. The land will continue to be used for cattle grazing.

6. FINDING: The inclusion of this land is not likely to result in the removal of adjacent land from agricultural use. There is no evidence to support a finding that this new contract will have any effect on any adjacent agricultural uses.

7. FINDING: The approval of the Williamson Act Contract Modification is based upon review of the project specific and site-specific details of this case.
8. **FINDING:** This project is Categorically Exempt based on the following: Class 17; Section 15317, Open Space Contracts or Easements, CEQA Guidelines.
