Reflective Residence Sign Information
The following is an excerpt from the SRA Fire Safe Regulations, Driveway standards:

1. A reflective sign shall be posted at driveway entrance and shall be visible and legible from both directions.
2. Signs must be 3 to 4 feet above the ground surface on either metal or wooden post, and some type of hanger.
3. Where multiple address’ are required at a single driveway, they shall be mounted on a single post.

SCOPE does not drill holes in the signs, this can be done easily with an electric drill be the homeowners to accommodate the particular hanger device.
