Did you lose a structure in the Oak or Agua Fire and need to rebuild or reside on your property?

Are you planning on placing an on- or off-site temporary trailer?

No

Are you planning on rebuilding your residence?

No

You are all-set!

Yes

Will your home be stick-built or a mobile home (MH)?

Stick-Built

Verify septic system and water requirements with Environmental Health

Complete a residential building permit with the Building Department

MH

Complete a mobile home information sheet with the Building Department

Additionally, a grading permit may be needed. Please contact the Building Department if you are unsure.

The rebuild must meet current code requirements and permit fees will apply. Please contact the Building Department with any questions.

Complete a temporary housing application package with the Building Department (temporary trailer must meet the standards established in MCC 18.05.040 or 18.05.070)

The temporary trailer must connect to existing septic system or have a septic pumping contract

A temporary trailer is only allowed until the rebuild is complete or for up to 5 years.
