

\*\*\*\*\* MARIPOSA COUNTY ROAD POLICY 1991 \*\*\*\*\*

deferment, and maintenance provisions, where applicable, shall be as indicated under Section II, ROADS.)

Four foot wide minimum bike lanes may be installed on each side of roads when bikeways are proposed. Bikeways eight feet wide shall be located where bikeways are proposed elsewhere. Bikeways shall be built as designated by specific plans, the Mariposa County Bike Plan, or as specified by the Planning Commission, per the Improvement Standards.

VI. E X C E P T I O N S

The Planning Commission or Board of Supervisors may reduce, waive or increase requirements contained herein, including but not limited to the Charts and Appendix attached hereto, where appropriate in cases where it is determined to be in the public interest. Findings relative to the special circumstances, and conditions shall be based on specific exception provisions to be developed for the subdivision ordinance.

VII. A D M I N I S T R A T I O N

The Planning Department and Public Works Department shall use the Road Improvement and Circulation Policy document in formulating recommendations for road improvements on all applicable projects. The Public Works Director shall preview and formulate road improvement recommendations on all projects affecting County Roads in all cases when requested by the Planning Department or Planning Commission.
