RECOMMENDED ACTION AND JUSTIFICATION:  
(Policy Item: Yes _  No X_ )
Adopt revised plans and specifications for the Mariposa Town Sidewalk Project (PW 92-38) and authorize the Director of Public Works to award the project to the lowest responsible bidder and execute a contract with same.

This action is necessary because of minor modifications to the design, namely (1) the alignment of the sidewalk on 11th Street was changed slightly to conform with the existing street alignment and eliminate the need for a small right-of-way acquisition; (2) the sidewalk alignment along 8th Street between Bullion Street and Highway 140 was moved from the south side to the north side, with a corresponding shift in road alignment to eliminate impacts on the existing Bed and Breakfast business on the north side and lessen impacts and acquisition needs on the property on the south side. Most importantly, this allows for pedestrian crossing of 8th Street in a more safe location at Bullion Street; and (3) minor drainage revisions and improvements were included.

The plans and specifications are available for review at the Public Works office. Construction will start after the last day of school on June 10.

BACKGROUND AND HISTORY OF BOARD ACTIONS:
On June 23, 1998, per Resolution No. 98-242, the Board adopted plans and specifications for the interior sidewalks only. Highway sidewalks will be bid latter, after the main part of the tourist season. County Road Improvement and Circulation Policy requirements were waived for a 6' concrete sidewalk in commercial areas to a 4' wide concrete sidewalk on the southwest side of Bullion Street between 10th and 11th Streets and on the northeast side of Jones from 7th Street approximately halfway to 8th Street and to a 4' wide temporary asphalt path along 11th Street from Bullion Street to Charles Street. This work was postponed due to design and right-of-way complications.

The Engineer’s estimate for the interior sidewalks is $340,125. Fund sources include Prop 116 funds and State Transportation Improvement Program (S.T.I.P.) funds. Road funds will be used for drainage improvements and adjacent street rehabilitation. Paving for those streets where sidewalks are installed will be included in a separate contract for the summer overlay program.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:
No action. These projects will be delayed. The Prop 116 funds must be obligated by June 2000 or will be lost to the County.
