

DEPARTMENT: Public Works

By: Michael D. Edwards

Phone: 966-5356

RECOMMENDED ACTION AND JUSTIFICATION:

(Policy Item: Yes No)

Public Works recommends that the Board of Supervisors adopt the attached resolutions accepting dedications of public road easements not previously accepted by the Board on major subdivisions.

This action will clear up any remaining questions there may be relative to public access roads and whether or not they are maintained by the County.

Attachment #1 includes road easements that should be accepted for public access but not for County maintenance. Attachment #2 includes roads in the Lake Don Pedro area that should be accepted for public access and maintenance. These actions are consistent with County policy in place at the time the maps were approved by the Board.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

In the past, for a period of years, the Board routinely took actions as a part of approving major subdivision maps to "postpone" acceptance of the offers of dedication of roads for public access and/or County maintenance. Additionally, the roads listed on Attachment #2 have been in the County-maintained mileage since these maps were recorded.

On August 4, 1987 the Board passed Resolution No. 87-313 stating the their intention to accept dedications of public road easements made on subdivision maps. Later, the Board directed Public Works to prepare these resolutions so that the Board could accept these dedications which had not previously been acted upon by the Board.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

If the Board does not adopt the attached resolutions, these offers of dedication will remain open until either accepted or rejected, in writing, by the Board.
