

DEPARTMENT: Public Works

By: Michael D. Edwards
Public Works Director

Phone: 966-5356

RECOMMENDED ACTION AND JUSTIFICATION: (Policy Item: Yes ___ No X)

Resolution authorizing Public Works to waive formal bid requirements and seek informal bids for the electrical components and light poles for the Ballfield Lighting Project, PW 95-20, for the Mariposa High School. Only the installation of these items will need to go out for a formal bid.

The electrical components would be purchased by the County from the low bidder, after approval by the Division of State Architect (DSA). The DSA requires the following conditions of approval:

1. Approval of equipment, current pricing (regardless of fluctuation in steel prices).
2. Detailed drawings of the electrical system for the entire project and light poles, and electrical material specifications, all reviewed and stamped by an electrical engineer.

Quotations for the lighting poles have been received. Graybar Electric of Fresno submitted the lowest informal quotation of \$36,553 and has offered to provide the above-mentioned services as part of the bid.

The above would satisfy the balance of conditions of the DSA for work on the school property so approval may be granted for this project.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

This is a continuation of an approved C.I.P. project, and on July 22, 1997, the Board approved the project moving forward with the light pole foundation design.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

1. No action. This would delay review of the project by the DSA and likely increase the cost of the project.

COSTS: () Not Applicable		
A.	Budgeted current FY>	\$ 60,000
B.	Total anticipated costs>	\$ 36,553
C.	Required additional funding>	\$ -0-
D.	Internal transfers>	\$

COSTS: () 4/5th Vote Required		
A.	Unanticipated revenues>	\$
B.	Reserve for contingencies>	\$
C.	Source description: >

Dear Clifton:

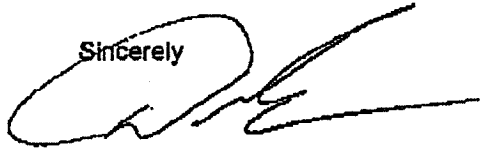

Thank you again for your consideration of the Whitco pole order for your ball field. As was quoted, the pole price includes an electrical engineers stamped drawing for submittal to DSA as well as an onsite inspection of welded joints.

When we get your approval I will need to get together with you to discuss the existing fixtures so that we may calculate the necessary power requirements.

Should you have any questions, please call me.

Thank you.

Sincerely

Dale R Rieth
