Resolution authorizing appropriation of $20,000 from the Don Pedro Sewer Zone Utility Capital Fund for repair of lift stations in the wastewater collection system of the Don Pedro Sewer Zone.

Electrical and pump repairs are needed at multiple lift stations. The equipment is at the end of its useful life, having been installed over 25 years ago. A thorough evaluation of the system has yielded the following list of needed repairs:

1) Two non-functional pumps, one bad motor and one semi-functional pump. These pumps will be either rebuilt or replaced.
2) Multiple motor bearings to be replaced.
3) Eight non-functional alarms.
4) A variety of minor electrical repairs in eight lift stations.
5) Servicing and repair on 16 check valves.

The weather limits the time available for this type of repair work. If we start soon, we can maximize the hours available to complete the work ahead. Some overtime will be required.

The current balance in the Don Pedro Sewer Utility Capital Fund is $88,628.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

Similar rehabilitation work has been accomplished recently with appropriations from the Utility Capital Fund.

LIST ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

1. No action would result in a delay of required repairs until later this summer. This work is needed soon due to the potential public health risk associated with possible pump failures.
