FINDINGS

GENERAL PLAN/ZONING AMENDMENT NO. 2018-092
AND CIM PLAN AMENDMENT NO. 2018-094

General Plan/Zoning Amendment Findings:

1. FINDING: The proposed amendments are in the general public interest, and will not have a significant adverse effect on the general public health, safety, peace, and welfare.

   The proposed zone change of the 38.56 acres and General Plan Land Use change of 1.5 acres are required for conformance of existing on-site development, pursuant to the Mariposa County General Plan and Zoning Ordinance. The public will benefit by the appropriate zone (Resort Commercial) and General Plan land use (Buck Meadows Special Plan Study Area, Rural Economic) being applied to the site where no physical change is proposed or required, and therefore, no potential adverse effects on the general public health, safety peace and welfare will result.

2. FINDING: The amendments are desirable for the purpose of improving the Mariposa County General Plan with respect to providing a long term guide for county development and a short term basis for day-to-day decision making.

   These amendments ensure that the uses and activities on-site are conforming to the zoning ordinance and general plan. The Resort Commercial zone is listed as being consistent with the Buck Meadows Special Plan Study Area- Rural Economic land use classification.

3. FINDING: That amendment conforms to the requirements of state law and county policy.

   This project has been processed in accordance with State law. According to State law, General Plans take precedence over zoning ordinances and one of the functions of the zoning ordinance is to implement the General Plan. This amendment conforms to the requirements of State law and county policy by aligning the zoning map and the General Plan land use and by ensuring consistency between the uses and the zoning where the applicable zoning required for the use is Resort Commercial and the land use is Buck Meadows Special Plan Study Area, Rural Economic land use classification.

4. FINDING: The amendment is consistent with other guiding policies, goals, policies, and standards of the Mariposa County General Plan.

   The amendment implements the General Plan by making the uses conforming to zoning and zoning conforming to the General Plan land use thereby meeting the standards within County Code titles consistent with those contained in the General Plan. The amendment is consistent with the guiding policies, goals, policies, standards and implementation measures of the General Plan.

5. FINDING: In the case of an amendment to the zoning classification on an individual parcel or General Plan Land Use Map,
a. the subject parcel is physically suitable (including, but not limited to access, provision of utilities and infrastructure, compatibility with adjoining land uses, and absence of physical constraints) for the requested land use designation and the anticipated land use development; and
b. the proposed zoning and land use is logical and desirable to provide expanded employment opportunities, or basic services to the immediate residential population or touring public.

The area proposed for Resort Commercial Zone is physically suitable for the existing tourist oriented resort lodging facility. The provision of utilities, infrastructure and land use compatibility is established at the site.

The proposed zoning and land use is logical as it reflects the existing development and uses at the site and brings the subject lands into conformance through the Resort Commercial zone and General Plan land use. These support the resort commercial activities as a permitted use.

6. **FINDING:** Amendment to the Commercial Industrial Manufacturing Plan (CIM 2003-073) applicable to the parcel is required to reflect the General Plan Zone change and existing uses including the HCD Permit for a Special Occupancy Park (RV) and conformance to the CIM plan. The amendment is to remedy the zoning non-conformities (violations) and related zoning compliance issues pursuant to Code Case No. 2017-060 applicable to the project site.

7. **FINDING:** This project is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15060(c) (2), (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and Section 15061(b) (3) (there is no possibility the activity in question may have a significant effect on the environment), CEQA Guidelines.

The proposed Zone Change and General Plan amendment and CIM Plan amendment are necessary to conform existing development and uses to requirements of the Mariposa County General Plan and County Code. No improvements are proposed or approved as a part of the project. Any future development application would undergo environmental review required at the time of application and any future changes would undergo its own permitting process in addition to the land use permitting process required. It is noted that minimal physical changes occurred on-site as a result of the change in land uses. The prior development on-site was a mobile home park, which was changed to an RV park, some spaces of which were developed with park model units.
