Re: Proposal for Analysis Report
of the Don Pedro Wastewater
System.
Re: California Regional Water
Quality Control Board
Cleanup & Abatement Order

Dear Roger:

Following our meeting Wednesday, September 15, 1982, with yourself, Supervisor Dalton, Fred Bolte, Bert Jameson and Jeff Whignan we are presenting herewith a revised proposal for captioned report.

PROPOSAL

We will review the treatment and disposal system for deficiencies as outlined in California Regional Water Quality Control Board Abatement Order dated May 18, 1982, and will prepare a report that will:

1. Identify the deficiencies in the treatment and disposal facilities.
2. Recommend corrective actions necessary to mitigate the deficiencies and clear the abatement order.

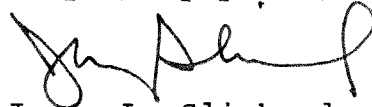

-2-

We will coordinate this effort with your office, Mariposa County, Mr. Lonnie Wass of the Regional Board, and Lake Don Pedro Community Services District. We will submit the report to the Regional Board for their review and approval. The report will contain descriptions and discussions of our recommended procedures necessary to correct any deficiencies, but will not constitute working drawings or bid documents.

We propose to prepare this report for a total cost of \$2,000 with your District providing water sampling and analysis as required. We estimate the report will require two weeks to complete upon our receipt of water test data and notice to proceed.

If you wish us to proceed with this work please sign and return this letter retaining a copy for your records.

Very truly yours,

Jerry L. Slinkard, P.E.

Agreed to and Acknowledged:

Mariposa County Special Districts
