			TOTAL MAN-YEARS	0.4	
			FRINGE BENEFITS AND OVERHEAD	\$	\$
SUB-TOTAL				\$ 1,702.00	\$1,798.00

9. DISTRICT'S PROGRAM (Continued)

D. PROGRAM OBJECTIVES:

Attach descriptive materials, as appropriate.

- (1) Describe the District's air pollution control program objectives which are needed to effectively deal with the air pollution problem identified in Item 9C.
- (2) Identify those objectives that are expected to be accomplished this fiscal year.
- (3) Explain how the subvention funds are to be used in accomplishing this year's objectives.

- (1) In as much as there is only one (1) known emission source in the County and that source is in compliance with discharge requirements it does not appear that enforcement will require any measurable amount of time on behalf of the Air District in the forth coming year.
- (2) Objects are to cooperate with other districts in the Air Basin to plan for future control strategies and secure some monitoring equipment for Basin wide useage.
- (3) Subvention funds, in conjunction with local funds, will enable personel to attend planning meetings and will provide this District's share of the Basin cost of providing Engineering expertise and monitoring capabilities.
