TO: City and County Planning Directors
FROM: Council on Intergovernmental Relations
SUBJECT: Requests for General Plan Element Time Extensions

The legislation requiring the CIR to adopt guidelines included a provision that allows the Council to grant an extension of the due dates for the seismic safety, noise, scenic highway and safety elements. Recognizing that some jurisdictions may, for various legitimate reasons, have difficulty completing the newly required four elements by September 20, 1974, the CIR was given the responsibility to review requests to extend the deadline for these general plan elements. The following is an excerpt from the Government Code which specifically gives the Council this opportunity:

*Section 65302.2 Preparation and adoption of elements and time
limit extension process*

Notwithstanding any other provision of law, every city and county shall prepare and adopt the seismic safety element, the noise element, the safety element, the scenic highway element, and any other element hereafter required to be included in its general plan no later than one year following the adoption of guidelines for the preparation of such elements pursuant to Section 34211.1.

Upon application by a city or a county, the Council on Intergovernmental Relations may, in cases of extreme hardship, extend the date for adopting such elements for a reasonable period of time.

In order to discharge this responsibility the Council adopted criteria to review applications for extension. A form has been enclosed with the adopted criteria printed on the reverse side.

The Council will consider extension requests at its May 16, June 13, July 18, and August 22nd meetings. Applications will be taken in order received. Following a preliminary review of your application, you will be notified of the time and place of the Council meeting.

Send your requests to: *Greg Harding, Community Assistance Officer, Office of Planning and Research, 1400-10th Street, Room 222, Sacramento, California 95814, (916) 445-1114.*

CRITERIA USED BY CIR TO REVIEW
REQUESTS FOR
PLANNING ELEMENT EXTENSIONS

- A. Data required for the element to be provided by another agency or jurisdiction has not been provided.
- B. In spite of appropriate budgetary provisions and recruiting efforts, the jurisdiction has been unable, since September 1973, to obtain necessary staff or consultant assistance.
- C. A disaster has occurred requiring reassignment of staff for an extended period and/or requiring complete revision and re-evaluation of the entire general plan.
- D. Review procedures in local ordinance require an extended public review process which would cause the proposed policy to be considered by the governing body after the deadline.
- E. The city or county is involved in an intergovernmental program involving several jurisdictions in order to adequately and efficiently prepare the element.
- F. The preparation of the required elements are being accomplished within a comprehensive general plan program involving a systematic evaluation of the interrelated aspects which would result in an integrated product.

Each application will be reviewed on its merits. In describing the justification for the extension, evidence of progress toward completion should be indicated.

Extensions will be granted up to one year. If more time is needed, the Council will consider such a request toward the end of the expiration of the one year extension. The timetable should indicate the amount of time needed for work program. If more than one year is needed, the extension would be granted on the basis of accomplishments during the extended period.

APPLICATION PROCESS

A city or county should include the following material within the application:

1. Resolution from the governing body of the city or county requesting an extension.
2. Justification for the extension based on adopted criteria.
3. Work program for completion of the element(s).
4. Timetable for completion of the element(s).

REQUEST FOR GENERAL PLAN ELEMENT EXTENSIONS

Jurisdiction County of Mariposa	Contact Person Bruce Eckerson (Co. Counsel)	Phone Number 966-3625
Indicate the element(s) which need to be extended and the anticipated completion date. <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <p>Safety - 9/20/75</p> <p>Noise - 9/20/75</p> </div> <div style="width: 45%;"> <p>Scenic Hwys - 9/20/75</p> </div> </div>		
Justification (Identify and describe the applicable criteria found on the back of this form, use additional pages as necessary). <p>The County of Mariposa is now completing its Seismic Safety Element in cooperation with several other counties under a joint powers agreement and a grant obtained through C.I.R.</p> <p>Our limited planning staff consists of a 3/5 time planning commission secretary. Guidelines for preparation of these elements were developed after adoption of Mariposa County's 1973-'74 budget.</p> <p>Consideration may be given in the 1974-'75 budget for long range development of these elements. Federal jurisdictions within the County are reluctant to offer complete cooperation in supplying necessary data.</p> <p>A work program and timetable cannot be developed until adequate staff or contracts can be acquired. Adequate and recognized standards are not available to develop the noise element.</p> <p style="text-align: center;">Request is based on Criteria # A " " " " " # E</p>
