A Petition to Congress signed by citizens of Township 4 South Range 19 East, M.D.M., in Mariposa County, praying to have the boundaries of the Yosemite Park, lately created by Congress, changed so as to exclude said Township 4 South Range 19 East from said Yosemite Park, having been brought to the attention of this Board, with the request that the Board express its opinion in regard to the Park as at present constituted and as far as the interests of Mariposa County are affected thereby, it is:

Resolved, by the Board of Supervisors of Mariposa County, California:

Whereas certain residents of Township No. 4 South of Range No. 19 East M.D.M. have petitioned Congress to exclude said Township from the proposed National Reservation created by the Act of Congress, approved October 1st, 1870, and

Whereas, in the opinion of this Board, the said Petition is founded upon just grounds, and ought to be granted, and that it is proper for this Board in their capacity as representatives and guardians of the general interests of this County, to express what they believe to be the universal feeling of the people of this County,

Resolved, that we earnestly recommend to Congress the prompt
passage of an Act granting the prayer of said petition.
Resolved further, that in the opinion of this Board, the whole of Ranges 19 and 20, in this County should also be excluded, for the following reasons:
1. That such territory lies west and below the watershed and can in no way affect the flow of the waters into the Yosemite Valley.
2. That a part of said ranges are covered with valuable timber, and if not excluded from the reservation, irremovable incursions and loss will be caused to the people of Mariposa County.
3. That a great portion of this territory is essentially mineral land, and by covering it up by such reservation, the prospecting and development of many valuable mines will be prevented.

The Clerk is hereby authorized to furnish the aforementioned petitioners a certified copy of these resolutions.

On application of the Assessor, he was authorized to make a full set of maps for use in the Assessor's office and to receive a compensation of $100 in consequence.

The report of James A. Wedge, chief surveyor, Terr. No. 4 was approved, and his bill allowed for $203 on Terr. 4, No. 4, Fund.

The Board of Supervisors met according to adjournment.
Present: the full Board, Mr. J. J. Westfall at the chair.

The following Motion was made by Mr. Cornett, and seconded by Mr. Bedgrove, to adopt the following Order:

In the matter of the two public wagon roads heretofore proposed, one from Beaverville to Oakton, and one from Nacoposa to the boundary of the Yosemite Valley Grant:

It appearing to this Board that circumstances have changed, and new exigencies have arisen, that a large portion of the route of the Yosemite road has been by the Government withdrawn and included in the National Yosemite Park, and that all persons are forbidden to cut any timber or trees, or disturb any mineral deposits, and that it is uncertain when, if at any time, rights of way for a road may be obtained, and that we can no longer hope any confidence that the bridge contractor will fulfill his contract, and if new bids are advertized for, it is uncertain how much money they will all for; and it appearing to us from said causes that the County is not pre- pared to begin either of said roads, and it is inexpedient that the Treasurer be now required by mandate of the Supreme Court to sell the Bonds issued for said roads and thus entailing upon the County heavy expense for interest for a considerable and uncertain period before the money arising from the sale of Bonds can be used, and in order that the Treasurer and the Board may be free to act in the future for the best interests of the County, as circumstances may indicate:

Now therefore it is by this Board ordered: That the Attorney of this Board in the suit now pending before the Supreme Court to test the validity of the Bonds issued for the construction of said two roads, and the bridge appertaining thereto, be, and they are hereby instructed, to dismiss said suit now pending before the Supreme Court of this State; and it is further ordered, that the Order of this Board made June 5, 1870, instructing the Treasurer to proceed to sell and dispose of the aforesaid Bonds in the manner prescribed by law, is hereby rescinded, and the Treasurer is instructed to
Keep said Bonds in his possession until the further orders of this Board.

The aforesaid resolution and Order were adopted by the unanimous vote of the Board.

Ordinance No. 42.

It appearing to the satisfaction of the Board that due and legal publication of Ordinance No. 42 has been made — it is hereby Ordered that due and legal publication of said Ordinance No. 42 has been made that the same is posted as record, and that this order be entered in the Minutes of the Board.

The Board of Supervisors met according to above Order of November 13th, 1891 in Special Session.

Present: Messrs: Larcigne, Dudley, Cornett, Hadgson and Westfall

Mr. Westfall in the chair.

It is agreed between Charles H. Peck, Contractor, for the new Vault addition to the Maricopa County Courthouse, and the Board of Supervisors of said Maricopa County, that the specifications heretofore adopted for said Vault and forming the foundation of said Peck's Contract be amended as hereinafter stated: it having been proved to the satisfaction of this Board that the brick Vault over-hand provided for in said specifications cannot be constructed because it is too heavy to be supported by the walls stipulated for in said contract, it is agreed between the parties hereto that said specifications be amended by striking out all provisions for constructing a brick vaulted roof and by substituting the following therefor:

The side walls are to be raised as fire-proof walls three feet higher than before; the roof to be a vaulted roof, at least so high above the ground as to be provided and to be sufficient to bear safely, to the weight of the covering heretofore required; said roof to be covered with one layer of brick laid flatwise and with an inch and a half in the spaces of mud beneath them, the top to be properly pointed with good lime mortar and on the outside the best quality of 24 C. charcoal iron roofing plate. The door provided for in specifications No. 11 may be three feet on the inside instead of four, but to be four feet on the outside.

That in all other particulars of work and materials, said contract and
specifications shall remain unchanged. The said Charles J. Park by reason of making the frequent changes involving a large extra amount of labor and materials, shall receive the additional sum of Two hundred and fifty dollars payable at the close of the contract; this shall also include two coats of fireproof metallic paint on the roof for both old and new vaults, and furthermore to repair the old roof wherever it shall have been damaged by the construction of the new vault. And it is mutually agreed that the time for completion be extended thirty days from this date. The building to be accepted as soon as completed in accordance to contract.

The above was adopted by the unanimous vote of the Board, the full Board being present.
