1896 22 54 54 10 668 Cert. of Tax Sales 1896

REASON: Above-described property was redeemed July 25, 1907, for the delinquent taxes of 1896, under Sale No. 307. The decision of the Court in the case of Jones v. Stuernberg, 39 Cal.App.330, being definitive in this matter, the previous delinquent taxes are uncollectible.

DESCRIPTION: Town Lot No. 28 in Horntios, Town Lot No. 113 in Horntios.

REASON TO BE CANCELLED:

Deed Roll Page Sale No. Deed No. Vol. Page Record Year
1894 11 28 28 10 38 Tax Deeds Cert. of Tax Sales 1894
1895 24 367 367 10 379 Cert. of Tax Sales 1895

1899 5 5 5 10 1212 1899
1900 5 5 5 10 1212 1899

REASON: In 1918, under the name of Antoine Contreras, Lots in Horntios numbered 20 and 110 were delinquent and sold to the State in 1919 under Sale No. 3. In 1923 Lot 110 was erased and changed to 113 on the Assessment Roll. These lots were sold to Joseph N. Cabusot at Addenda sale in 1924. (Sec. Vol. 26, Page 323, of Deeds) Cabusot deeded these two lots to Mary Busano on September 22, 1926, Rec. Vol. 68, Page 66, of Deeds. These lots appeared on the roll in Mary Busano's name in 1925 as Lots 20 and 113. Lot 20 was doubly assessed to Warren Adams and taxes paid 1913 to 1921, incl. In 1936 Mary Busano's assessment was changed to Lot 28. It is, therefore, apparent that the 1918 assessment to Antoine Contreras should have read Lots 111 and 29 and evidence having been cited supporting our assumption as to the fact that Lots 20 and 110 appeared to be Assessor's errors, the sale of these lots in 1924 to Cabusot was intended to convey Lots 23 and 113. The lien is, therefore, no longer existent and the delinquent taxes, certificate of sale and deed to the State should be cancelled.

<tr>
<td>REASON</td>
<td>In 1895, the owner and assessor of the above-described property transferred his interest therein to Frank Olesch. In 1896, Olesch should have been assessed and the property escaped assessment that year. In 1897, the property appeared on the roll under two assessments; a mortgage interest being erroneously assessed to all of 58 and the real estate of 58 being assessed. In 1898, the assessment being redeemed November 17, 1903, under Sale Nos. 69 and 71/1897 respectively. In support of our contention that the 1897 descriptions were in error, no assessment could be found for the 58 of 1907 whereas the 1897 original roll revealed that both installations were paid on the entire 58 as follows: 1/2 Int. Sarah E. Jones, Vol. 2, Page 107. The 1898 Assessment Roll carried the property correctly described as &quot;58 of 1907&quot; under the owner's name, Frank Olesch, less the mortgage of Andrew Olesch. Although the 1897 Delinquent Roll and the redemption certificate of November 17, 1903, show the property as 58 of 1907, evidence is insufficient to show that the Assessor's error was typographical and the redemption was intended to redeem the property owned by Frank Olesch. The delinquent assessment, taxes, certificate of tax sale and the deed to the State should, therefore, be cancelled.</td>

REASON: Double Assessment to Geo. A. Anderson for the years 1932 to 1944, incl., and the tax paid. This assessment was cancelled by the Board of Supervisors August 6, 1946. In 1948 Anderson filed a claim for a refund and the Board ordered the 1945 and 1946 tax payments to be returned to him.

Due to the fact the taxes paid during the years 1932 to 1944, incl., under the Anderson double assessment could not be included in his refund, the delinquent assessment under Sale No. 114, Year 1932, and subsequent delinquencies in the name of Evelyn Chastyn should be cancelled.
It is further requested that the Board direct the Assessor to place the property back on the Roll as an escaped assessment from 1945 to 1951, inclusive.

MAPPING AGREEMENT

County of Mariposa

THIS AGREEMENT, made and entered into pursuant to Section 15624 of the Government Code, on the date hereinafter specified, by and between the State Board of Equalization of the State of California, hereinafter called the Board, and the County within said State as hereinafter designated and hereinafter called the County,

WITNESSETH: That the Board and the County for and in consideration of the conditions, agreement and stipulations hereinafter expressed hereby agree as follows:

1. In consideration of the payment by the County to the Board of the amount hereinafter prescribed in paragraph 2, the Board hereby agrees to prepare and deliver to the County an assessor's map system for the County. The map system shall include the map prints, indices to the maps, and the binders therefor and shall be prepared by the Board in accordance with paragraph 2.

2. In the preparation of the system the Board shall:

a. Outline, in cooperation with the assessor of the County, hereinafter called the assessor, a map according to Report No. 6 of the Standards Committee of the State Association of County Assessors and the System for Description of Real Property Parcels by Reference to Assessor's Maps, adopted by the Board on July 17, 1951, as AMR12 of the Instructions to Assessors, issued by the Board and made a part hereof by reference.

b. Gather information required for the mapping from Federal agencies (including the U.S. Geological Survey and the U.S. Forest Service) state departments and county offices.

c. Lay out and make detailed maps from available information according to the prescribed standards...

3. The assessor shall prepare master property cards as prescribed by the Board by entering the legal descriptions of all parcels of real property within the County, together with the names of owners, upon appropriate cards and shall submit such record cards to the Board for use in preparing the maps. Such master property cards shall be returned by the Board to the assessor, together with the original layout sheets, detailed maps and negatives.

4. In connection with the preparation of the map system, the County agrees to pay to the Board an amount equal to the sum of the following items:

a. The salary of any employee of the Board while actually engaged in the preparation of the map system. The salary of an employee, for the purpose of this provision, shall be computed on the basis of the number of days, or parts thereof, the employee is actually engaged in the preparation of the map system (including travel time) at an amount that for each day equal to $1 per cent of the monthly salary of the employee plus an appropriate percentage of
the amount so determined to reimburse the State for that part of its contribution to the State Employees' Retirement System.

c. The actual cost of all forms, supplies and other materials used by the Board in the preparation of the map system.

d. The pro rata cost of the equipment purchased for use in the preparation of the map system, according to the time such equipment is assigned thereto, on the assumption that the equipment will have a useful life of five years.

b. The pro rata share of rent and other expenses incurred by the Board in the preparation of the map system.

d. The Board, from time to time, may submit invoices for the portion of the consideration due hereunder from the County to and including a designated day. The County agrees to pay to the Board the amount of such invoices and the amount of any invoice submitted upon the delivery of the map system within thirty (30) days following the receipt of such invoices.

5. The Board will exercise diligence to keep the cost of the map system as low as feasible consistent with adequate fulfillment of the needs of the county, and will likewise exercise diligence to complete the map system as soon as feasible, consistent with the availability to the Board of facilities and personnel for that purpose, but the Board does not undertake to produce the map system at, or within any specific cost or on, or before any specific date.

7. If, due to limited availability of funds, the County desires to specify a maximum amount for which it may become liable hereunder during any fiscal year, it may notify the Board in writing to that effect, but no limitation so imposed shall become effective until thirty days after receipt of the notice by the Board. The County shall be liable with respect to items specified in paragraph 4 hereof accruing prior to the effective date of the notice, although this liability may result in a total liability under this contract during the fiscal year in excess of the maximum expressed in the notice. Immediately after its receipt of the notice, however, the Board will limit or discontinue work on the map system insofar as that may be practicable in order to minimize the amount of liability that may accrue in excess of the expenditure limitation desired by the county. But in no event shall the liability of the County hereunder exceed the sum of $5,000 in any fiscal year.

The notice of limitation of liability specified in paragraph 7 hereof must be executed in triplicate and sent to the Secretary of the Board, Sacramento, California.

Upon motion of McGregor, seconded by Conrad and unanimously carried, the following named persons were appointed as directors of the John C. Fre Pomont Hospital District for terms commencing on the first Tuesday of January, 1955: Frank B. Eming and Walter A. Davis. This action was taken upon request of the Hospital District thru their Resolution filed with the Board of Supervisors in accordance with the law. Res. No. 129 - Hospital District.  

The Auditor was authorized to pay Jack Hals for commodities used by the Road Dept.  
Judge Cockey reported on the information he received from architects and heating experts on installation and maintenance costs of heating the present Courthouse and the proposed new County building. It was the consensus of those with whom he consulted that a separate heating plant should be installed for each building. A discussion followed as to the proposed additions to the Courthouse and the Board expressed its intention to proceed with the additions as soon as possible. Judge Cockey suggested that the plans already prepared be re-circulated among the officers in the Courthouse for the purpose of obtaining suggestions and deletions to the plans to be considered on Oct. 5. The Board authorized Fred Miller to investigate lots within the immediate area of the Courthouse for placing a new building.
A letter from Alfred G. Glass, Chairman of the Citizens' Committee for Equality of Representation in County Government, was presented to the Board, together with 31 initiative Petitions containing signatures of registered citizens of the county. The Petition is entitled "An Ordinance to Re-District the Supervisorsial Districts of Mariposa County, Calif." Chairman Glass, on behalf of the Committee requested the Board to pass favorably on the request for re-districting as an election, as required by law to allow the citizens of the county to express themselves on this proposition. Chairman Glass states: "Basically the major arguments revolve around two points:

(1) The present districts of Mariposa County are in violation of Section 25001 of the California State Code and the principles enunciated therein.
(2) The present districts are in violation of the democratic principle of the rule of the majority; in the present time, supervisors representing 27.6% of the voters have more votes on the Board than those representing 72.51% of the voters". Note: Letter on file with Petitions.

District Attorney Lauritzen was called and stated that the petition was properly presented. A motion that the Ordinance be denied was made by McGregor, seconded by Beatty, and carried by the following vote: Ayes: McGregor, Beatty, McCoy, Miller. Noes: Conrad.

A motion that the proposition be placed before the voters of the county at the General Election, November 2, 1954, was made by Conrad, seconded by Miller and carried by the following vote: Ayes: Conrad, Miller, McCoy. Noes: Beatty, McGregor.

Fred D. Bradshaw presented a letter on redistricting to the Board, which was read by Chairman McCoy. Upon motion of McGregor, seconded by Miller and unanimously carried it was directed that the letter be printed in the Gazette. Mr. Bradshaw's letter reads as follows: Sept. 27, 1954.

"There is no doubt that there is a great deal of merit in the idea of changing the district lines to a limited extent. The bulk of the people in this county are also aware of this advantage on paper. This was amplified when the Board of Supervisors shifted the Whiterock People from District 5 to District 3. There is no doubt that this program could be continued cautiously to a great advantage of the entire county.

"The present redistricting movement under present consideration should be studied cautiously by all of the people of this county.

"Several of the questions that should be considered carefully are:
1. Why is it that the people of the entire county were not called in together with this group to bear their view point on the set-up of redistricting? Why were several meetings called in Dist. 5 without asking any other Dists. to participate?
2. Why did the people carrying the petitions in Dist. 5 & 6 stress the problems of the road budget, while in Dists. 1 & 3, there was another issue at stake?
3. Why were the people in Dist. 5 told they had by far the largest population and that only received one fifth of the County Road Budget when Records show that:
a. That 67% of the people in Dist. 5 actually have of necessity to travel 3 miles of County road.
b. That while the simple average rural count in this County is approximately 5 registered voters per mile. Dist. 5 has 4.2 registered voters per mile.
c. That the expenditures in the past four years shows that Dist. averaged considerably more than one fifth of the money allotted County roads.
4. Why, while it is certain that the bulk of the people passing the petition have reputations for honesty and intelligence, did no one try to verify the misinformation that they were passing to the people in Dist./4 & 5.
5. Why were the people in District 5 told they had the greatest mileage of County roads when the maps in Dist. 2 is larger and Dists. 1 & 4 are each approximately 2% smaller.
6. The facts point to a few unscrupulous individuals trying to put something over on the people of Mariposa County & it is certain that the people in Dist. 5 will support the fact that in the future they investigate the facts.
7. The spirit of fair play demands that every individual investigate the facts before passing judgment.
8. It is certain that the Courthouse and Road Office Records will be available to the people at all times.

Signed: Fred D. Bradshaw."

Smiley Thayer appeared before the Board and read a letter received by Ray Gordo from Ed Harmon. RESOLUTION NO. 1210 was passed:

WHEREAS, on December 15, 1948 the People of Mariposa County approved in a special election the reorganization of the high school district and all elementary school districts existing in said County on that date into one school district now known as Mariposa County Unified School District, and

WHEREAS, the newly formed unified school district became effective for operational purposes on July 1, 1949 under one governing Board of Trustees with a guarantee for a period of five years from that date that appropriations of monies from State funds to the public schools in said County would be made as though no reorganization of school districts had been effected, and

WHEREAS, the said five-year guarantee of no reduction of support from State funds for the said Unified School District expired June 30, 1954 and on July 1, 1954 the formula of necessity for small schools was applied to the public schools in said County for the determination of their financial support from State funds, and

WHEREAS, assurance was given on several occasions by various representatives of the Department of Education to Thomas B. Price, Executive Secretary and Superintendent of the Mariposa County Unified School District, that there would be either more or less financial support for the said Unified School District from State funds but that in either case the difference in the changeover would be of little, if any, consequences, and

WHEREAS, actually State monies due to be apportioned to the Mariposa County High School prior to June 30, 1955 will show an increase of ONE HUNDRED EIGHTY DOLLARS ($180.00) without taking into consideration increased enrolment and greater average daily attendance during the preceding year, and

WHEREAS, actually State monies due to be apportioned to the Elementary Schools of Mariposa County prior to June 30, 1955 will show a reduction of TWENTY-SIX THOUSAND SIX HUNDRED SIXTY-FIVE DOLLARS ($26,665.00) without taking into consideration increased enrolment and greater average daily attendance during the preceding year it certainly follows that this sum of money represents a reduction of income from all sources that a district, of the type this district is, can ill afford, and

WHEREAS, the administrative officers of the Mariposa County Unified School District foresee as a result of this reduction of State support great financial difficulties and problems for the year beginning July 1, 1955 and also recognize the fact that in reorganizing school districts into larger units of administration, particularly into county-wide, or nearly so, unified school districts in sparsely populated rural and mountainous areas, there should be no reduction of State funds
at any time following such reorganizations except those having very high assessed valuations due to such as very costly hydro-electric plant instal-
lations, all of which is taken into account in apportioning equalization monies to school districts,

NOW THEREFORE, BE IT RESOLVED that this Board of Supervisors urge the State
Department of Education to sponsor and introduce early in January 1955
corrective legislation which is so desperately needed to prevent undue
hardships involving, in particular, our ten elementary schools, and

BE IT FURTHER RESOLVED that a copy of this Resolution be mailed to the following:
Dr. Roy E. Simpson, Superintendent of Public Instruction;
Senator Stephen P. Teale; and Assemblyman Francis C. Lindsay.

Resolution No. 1223, which follows, was passed upon by Frank A. Miller, seconded by Conrad and unanimously carried, urging the passage of the aforesaid Bill.

RESOLUTION NO. 1223

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF MARICopa, STATE OF CALIFORNIA:

WHEREAS, it appears that the State of California in 1911, 1925, and 1935, by legislative enactments, did transfer in trust to the City of Long Beach, California, as trustee, certain tidelands and submerged lands within said City's boundaries to be used for commerce, navigation, and fisheries purposes for the benefit of all of the people of the State of California and for no other purposes, and

WHEREAS, it appears that from the year 1937, following discovery of rich oil discoveries underlying said tidelands and submerged lands, until now said City of Long Beach has realized from the sale of oil, gas and "dry gas" from said tidelands and submerged lands more than two hundred million dollars ($200,000,000.00) and has expended approximately forty million dollars ($40,000,000.00) thereof for harbor, navigation and fisheries purposes, has expended an unknown number of millions of dollars for its own municipal purposes, including the reduction of its own city taxes, and now has in excess of one hundred sixty million dollars ($160,000,000.00) in cash from said $200,000,000.00 plus $10,000,000, and of which its citizens have voted to spend for hospitals, recreational beach facilities and other facilities not in anywise germane to or connected with commerce, its harbor, navigation or fisheries, and

WHEREAS, said City as such trustee received in excess of thirty million dollars ($30,000,000.00) from the sale of oil, gas and "dry gas" produced and saved from said tidelands and submerged lands in 1934 and may continue to receive equal or greater amounts from said source for the next century, and

WHEREAS, in 1951 the Legislature of the State of California by enactment declared that to spend any more than one-half the seventy-five million dollars ($75,000,000.00) cash said City then had on hand from said source and one-half of all future revenues realized from the said oil and gas and said tidelands and submerged lands for navigation, commerce and fisheries purposes would be practicable and impracticable, and further declared that the remaining half of said seventy-five million dollars, one-half of all future realizations of money from the sale of oil and gas and all future realizations of money from the sale of dry gas from said tidelands and submerged lands were freed from the public trusts for navigation, commerce and fisheries purposes declared by the said 1911, 1925 and 1935 enactments, and

WHEREAS, it appears the said City of Long Beach has construed the aforesaid 1951 legislative declaration, freeing some of the proceeds of the sale of oil, gas and dry gas produced and sold from said tidelands and submerged lands, to mean and intend to make the funds so freed from said public trusts the property of said City of Long Beach to be used for its own municipal purposes other than the navigation, commerce and fisheries purposes, and

WHEREAS, there has been introduced before the Legislature of the State of California an act designated as "Assembly Bill No. 3762", commonly referred to as "The Allen Bill" which declares that the City of Long Beach now has the finest harbor, commerce, navigation and fishing facilities in the State of California and that to spend any more of the money now in its body or to be derived from the future sale of oil, gas and dry gas produced and sold from said tidelands and submerged lands would be economically impracticable, unnecessary, unwise and not in the interest of all of the people of the State of California who, said act declares, are the owners of all of the future revenues realized from the sale of oil, gas and dry gas and further declares that all of the cash now on hand and derived in the future be paid into the treasury of the State of California, and

WHEREAS, said City of Long Beach has formally and publicly declared its intention to retain all of said money and revenues for its own use and benefit and has recently appropriated large sums of said moneys to hire public relations experts and others to oppose said Allen Bill or any other act or acts of the Legislature act designed to place all moneys now held by it and realized by it in the future from the sale of oil, gas and dry gas from said tidelands and submerged lands not needed for and used for navigation, commerce and fisheries purposes in the treasury of the State of California for the use and benefit of all of the people of the State, and

WHEREAS, this Board is acutely aware of the financial problems of this County, other Counties and the State and of the crucial need for billions of dollars, without increased taxation, over the next decade to alleviate present difficulties all over the State and to provide proper highways, irrigation and domestic water, power, schools, public health, welfare, and other common necessities to life for the millions who will rapidly increase the population of our State, be it

RESOLVED, that this Board, believing it to be for the best interests of the residents of this County, and of all of the people of the State of California hereby declares itself in favor of the enactment of and hereby memorializes the Legislature of the State of California to enact and make into law Assembly Bill No. 3762 now introduced before the Assembly of said body by Assemblyman Bruce F. Allen, of Santa Clara County, William H. Hannon, of Fresno County and others and any amendment or amendments of said bill or any other act or acts which may be hereafter introduced before said legislative body, or any other body or bodies, by virtue of the proceedings of the City of Long Beach, California, has realized from the sale of oil, gas and dry gas produced, saved and sold from the tidelands and submerged lands transferred in trust for commerce navigation and fisheries purposes to said City by legislative enactments in 1911, 1925 and 1935 and any of said trust purposes to be transferred to the proper officials of this State to be used for the betterment of all of the people of the State and to cause all future proceeds realized from sales of oil, gas and dry gas from said source not actually needed for and used for navigation, commerce and fisheries purposes to be transferred to the proper state official for the use and benefit of all of the people of the State of California.
