He attended the Fish Camp Town Planning Advisory Council meeting, and he noted that the Park Service announced a different exit on Highway 41 – there will be a curved turn versus a stop sign, and they are working on entrance station improvements. Then he met with business owners in the area and reviewed some flood plain issues. Planning
PUBLIC HEARING to Adopt a Resolution Adopting a Negative Declaration and Approving the Wawona Town Planning Area Specific Plan Update, General Plan Amendment 2011-001

BOARD ACTION: Kris Schenk/Planning Director, was present. Larry Enrico/Senior Planner, presented the staff report, including review of the background of the Plan and Update, review of recommendations from the WTPAC (Wawona Town Planning Advisory Committee), and review of the Planning staff and Commission recommendations. He advised of the temporary camping use issue that was raised at the end of the update process and options for handling this issue. Chair Bibby reviewed the public hearing process. Supervisor Allen noted that he forwarded the William Rosenberg letter to Planning to address the questions that were raised; advised of a
correction on circle page 76 of the Plan Update in Section A1.2.3 Nonconforming Uses and Structures to reflect “…shall be considered a nonconforming use…” He thanked the WTPAC for their work on this update, the National Park Service for their contributions, and the Planning staff for their work. He referred to the camping issue that was raised and noted that the testimony given during the Planning Commission’s hearing was a trespass issue; and he feels the camping issue needs to go back to the community/WTPAC and not hold up this Plan as it has already been though the process and approved by the Yosemite National Park Superintendent. Supervisor Stetson thanked everyone for their work on this Plan; and he commented on the overlay design of the flood plain and asked if this would help the property owners obtain insurance with this change. Staff responded in the affirmative.

The public portion of the hearing was opened and input was provided by the following:

Dr. Ralph Harder, resident of Sutter Creek, stated he owns a cabin in Wawona – for 43 years. He referred to his email and noted that the WTPAC began working on this Plan in February 1998, versus the June 2003, date mentioned in the staff report.

Edward Mee, resident of Wawona and Chair of the WTPAC, stated they are proud of this document and it is important to the community. He commented on their work on the Plan and noted the importance of the Park. He thanked County staff and the Park Service. He agrees with Supervisor Allen that the Plan should move forward with adoption and that the camping issue should go back to the community.

Gene Spindler, member of the WTPAC, thanked Supervisor Allen for his support; and he thanked Larry Enrico and Kris Schenk for their work. He referred to the staff report and the options for action; and he recommended that the Board take action to approve the Plan today.

Anita Starchman Bryant, Starchman & Bryant Law Offices, advised they are representing David and Noel Fraguglia. She referred to her letter to the Board and the issues raised relative to the camping use, and she provided information on the Fraguglias’ limited historic use of their property for camping activities. She feels the limitations on temporary camping were introduced to restrict her clients’ use of their property in retaliation for their opposition to trespassing on their land. It is their position that the Fraguglias have established a legally existing nonconforming use. She feels the proposed camping use in the Plan is too restrictive, and she does not feel that Title 17 is applicable because of the hook-up requirements – establishment of a septic is prohibited by the Floodplain-Overlay designation. She asked for clarification of Supervisor Allen’s request for a moratorium. Attorney Starchman Bryant responded to questions from the Board relative to the number of camping days on this parcel and whether there have been any concerns relative to this use. Supervisor Allen advised of his discussion with law enforcement officials for Wawona on Saturday – there was no issue with the camping until the trespass issue came up. Attorney Starchman Bryant advised that she compared the Plan Update to the old Plan and she applauded the efforts of staff and the community and she feels the changes are good, with the exception of the temporary camping use.

June Sloan, taxpayer in Wawona for 62 years, stated her family appreciates the Park Service and Planning staff and the WTPAC for their work on this plan for the “Wawona village.” She asked why the infrastructure was not planned for full build-out of the area.

The public portion of the hearing was closed and the Board commenced with deliberations. Staff responded to questions from the Board relative to the status of the camping issue on the parcel in question if the Plan Update is adopted; and relative to Title 17 and the temporary septic hook-up requirements for camping. Steve Dahlem/County Counsel, noted that for the record, the Board is making a legally established nonconforming use determination on the record at this time on the camping issue. Larry Enrico suggested revised language on circle page 29 of the Plan Update to
reflect that the WTPAC was reactivated in the fall of 1987 and the committee members were appointed and their first meeting was held in February 1998, and that the committee met regularly thereafter.

(M)Allen, (S)Stetson, Res. 12-37 was adopted adopting a Negative Declaration and approving the Wawona Specific Plan Update, General Plan Amendment Application No. 2011-001, with direction that the temporary camping issue be referred back to the WTPAC for resolution, and with the changes in the Plan Update on circle page 76 to add “use” and on circle page 29 to clarify the history of the WTPAC as discussed/Ayes: Unanimous. The hearing was closed.

2:56 p.m. Recess

3:07 p.m. The Board reconvened.

Accept the Amended Comprehensive Economic Development Strategy (CEDS) from the Economic Development Corporation of Mariposa County (Supervisor Cann)
Supervisor Bibby advised that the section on “commercial flights at the airport” be considered separately because she has a potential conflict of interest as there is the future possibility that land acquisition or aviation easements may be considered, and she has a remainder interest in property adjacent to the Airport.

Roger Biery/President of the Economic Development Corporation, reviewed the amended CEDS and the review process and timelines after today. He noted that the Economic Development Administration does not recognize tourism as an industry.

Discussion was held. Supervisor Allen asked why Lake McSwain was not included. Supervisor Cann noted a correction to the acreage for the field of dreams project. Supervisor Bibby asked about giving consideration to the timber industry; and she asked that appropriate advisory committees be involved in the process for projects that fall within their jurisdiction.

Continued Public Hearing to Consider Zoning Amendment No. 2010-162, Which Proposes to Amend the Zoning Map by Rezoning Three Parcels Totaling 437 Acres Currently in the Mountain Preserve Zone (160-Acre Minimum) to the Agriculture Exclusive Zone (160-Acre Minimum); Jerry Cox (Bison Creek Ranch), Project Applicant. the Property is Located at 6071 CYA Road/APNs 008-140-021, 008-140-022, and 008-140-023. (Continued from January 24, 2012)

Staff report was given by Alvaro Arias/Associate Planner; and he advised that the public hearing was continued to today for staff to review possible violations. He advised that the applicant has made progress on the violations, and the remaining violations have to do with Building Department issues. He further advised that a letter was distributed prior to the hearing relative to the status of the violations. Discussion was held on whether or not to continue the hearing for the violations to be corrected. Steve Dahlem/County Counsel, responded to a question from the Board as to whether to separate the violations from the rezoning request, and he recommended that the hearing be opened on all of the issues. He suggested that if staff has any additional information for the hearing that it be presented at this time. Supervisor Bibby asked whether the applicant received the four page letter that was distributed prior to the meeting. Sarah Williams/Deputy Planning Director, advised that the only information that the
Board has not received pertains to the violation issues that have been resolved with the Tax Collector, Assessor, and the Agricultural Commissioner. She further advised that nearly all of the advertising issues have been resolved, with the exception of two website references. Staff responded to questions from the Board relative to the need to address the outstanding violation issues regardless of what happens on the zoning amendment; and relative to the findings that need to be met to approve the zoning amendment and staff's recommendation. Sarah Williams responded that the input previously received from the neighbors had to do with uses that were occurring that were not allowed under Williamson Act Contract; those issues have been addressed through this process of bringing the land into compliance with the Williamson Act and the applicants have been advised that they can not have any uses that are in conflict with the Contract. She further advised that only day recreational use is allowed and no permanent facilities are allowed. Weddings are not allowed as an agritourism use. County Counsel responded to a question from the Board and advised that it would be appropriate to close the public portion of the hearing prior to deliberations, then the Board could determine whether to continue the hearing or make a decision on the zoning amendment. Staff responded to a question from the Board and advised that all of the information on the zoning amendment was presented when the hearing was first conducted.

The public portion of the hearing was opened and input was provided by the following:

George Smith stated he is Mr. Cox’s uncle and he feels that the problems with the building violations and the zoning amendment are separate issues and should not be considered together. He feels the land was incorrectly zoned with the previous owner and the Agricultural Exclusive zone is a better zone. He responded to questions from the Board relative to the unpermitted structures and of his efforts to correct the violations.

Jerry Cox, owner of Bison Creek Ranch, responded to questions from the Board relative to assurance that if the rezoning request is granted that they will comply with all requirements. He advised that some of the things were done before he purchased the property and then his mother lived on the property and made some improvements. They are working to bring everything into compliance with the Williamson Act Contract requirements and they have been conducting agricultural activities on the land for over ten years.

George Smith responded to further questions from the Board relative to the agricultural activities that are occurring; and he advised they have bison and horses, and that the land has been brushed for grazing. He further noted that the timber is gone so they do not feel that the Timber Preserve is an appropriate zone. He provided input on the history of the processing of the zoning amendment. He responded to questions from the Board relative to the use of the gazebo structure; relative to the status of
correcting the website issues; relative to their agreement with the status of the violations presented by staff; and relative to the previous building permit processes and status.

There were no speakers in support of the application, or in opposition.

General Comments:

Jerry Cox stated all of the structures are in compliance with the Williamson Act Contract, and they have done everything they could in the last month to correct the violations; and he feels the land should be rezoned.

Staff responded to questions from the Board as to whether the Williamson Act Contract should be withdrawn if the zoning change is not approved; and whether there are any Williamson Act Contract violations at this time; relative to the finding that needs to be made that everything is in compliance with all laws given the outstanding violations.

The public portion of the hearing was closed.

Clarification of process:

Staff responded to questions from the Board relative to needing to change the dates in the formal resolution and ordinance to reflect this continued hearing and action date.

Deliberation:

(M)Turpin, (S)Allen, Res. 12-90 was adopted finding that the project is exempt from environmental review and approving Zoning Amendment Application No. 2010-162 with the recommended findings; and the first reading was waived and the Ordinance introduced amending the Mariposa County Zoning Map pursuant to Zoning Amendment No. 2010-162 with the recommended findings. Chair Bibby read the title of the Ordinance into the record. Ayes: Unanimous. The hearing was closed.

Supervisor Bibby asked that Public Works discuss the status of the water quality with the Health Officer, and she asked for clarification of the number of lots that are involved. Discussion was held relative to the terms of the proposal from the Mariposa Industrial Park and review by the Solid Waste Task Force.

Input from the public was provided by the following:

Larry Harris, representing the Mariposa Industrial Park, provided input on the changes and upgrades they made to the water system to be compliant with the State Water regulations; advised that seven lots are in the industrial park and he advised of their contribution to the water system. He responded to questions from the Board, and he advised that the water meets the State’s quality standards and that they have not had a problem with providing water since last July.

 Supervisor Bibby asked for more information on the proposed water rates and for clarification of the term “selling water” in the proposal relative to the County’s connection with the SPCA for their water. Rick Benson/County Administrative Officer, commended on the water supply regulations and he noted that the invoices for the water is being paid from the Solid Waste budget and that budget should not be used to pay for the portion for the SPCA. Pete Rei provided input on the regulations and the budget.

Pat Stacy, current President of the SPCA, provided input on their operating budget and the services they provide, and she referred to their 1982 agreement with the County. She expressed concern with the quality of the water and its impact on their appliances and plumbing and she noted that there are times that they have been without water, and she doesn’t feel that they should have to cover the costs of the water they use.

Ruth Catalan, speaking as an animal lover and member of the SPCA, stated she supports Pat Stacy’s comments, and she feels that the County should cover their water costs due to the services they provide.

Supervisor Allen noted that he is a member of the SPCA and questioned whether that is a conflict for this matter. County Counsel noted that he is also a member of the SPCA and he feels that full disclosure eliminates any conflict.

Supervisor Turpin stated he feels that the portion of costs for the SPCA should not be paid from the Solid Waste budget, and that the Board needs to make a
determination relative to the County’s contribution to those costs. Rick Benson suggested that direction be given to staff to enter into formal negotiations to reach an agreement with the Industrial Park, and to pay the January invoice knowing that there will be budgetary impacts; and he further suggested that the Board make a decision relative to the water used by the SPCA by separate agreement. Supervisor Bibby noted that Public Works will need to bring back a budget action; and she asked that staff further pursue the option of installing a well at the landfill for the long term.

3. **Public Works (ID # 1122)**

**Discussion and Direction Regarding a Process for the Implementation of a Special Event Permit with Applicable Fees for Events that Occur on County-Maintained Roadways, that Are Held by Profit and Non-Profit Organizations.**

Discussion was held with Pete Rei relative to the suggested Special Event Permit and process; concern with insurance requirements and additional regulations; and relative to combining the Public Assemblage Permits to have one permit for events. Pete agreed that the permits could be combined and administered through Public Works.

Input was provided by the following:

Sheriff Binnewies commented on the history of reviewing the Public Assemblage Permits and he stated he is interested in working with the Public Works Director to combine the permits as discussed.

**Approve Budget Actions Transferring Funding from the Tobacco Settlement Fund and the CSA #3 Fund to the Capital Improvement Fire Station Funds and Reducing the Unfunded Liability Designation by $365,050 to Fund the Construction Costs of the Don Pedro, Midpines, Fish Camp, and Bridgeport Fire Stations ($1,116,838) 4/5ths Vote Required**

Discussion was held with Rick Benson relative to the recommended budget actions; and he advised of a correction to the figure for the community support contribution to the Fish Camp Station and advised of additional funding from FEMA. Chair Bibby noted that correspondence was received from Karen Glendenning on this matter and that it has been distributed to the Board members and staff. Supervisor Allen advised that he responded to Karen Glendenning on the questions she raised; and he noted that it was agreed that Fish Camp would contribute $42,558 for the five percent grant match from
their fundraising efforts. Pete Rei and Jim Wilson/Fire Chief, provided input relative to the fire station projects.

Input from the public was provided by the following:

Donn Harter, Chair of the Fish Camp Fire Rescue Association, advised that they are grateful that this project is coming to fruition, but they are a little concerned with the increased costs and asked for clarification of whether they are subsidizing funding for the other projects. He advised that they have worked for over 35-years on fundraising, and he offered his services to the other communities on assisting with fundraising. Rick Benson clarified the funding issues.

Ruth Sellers questioned the mistakes that have been made over the years and asked why there was not just one design to cover all four stations, and she questioned the high cost.

Brad Aborn stated he was expecting FEMA to cover more of the costs - stated this is a complicated issue and he feels that it would be better for all of the Board members to be present to take action.

Jim Wilson and Pete Rei responded to the questions that were raised relative to the different designs and the costs. Mary Hodson/Deputy County Administrative Officer, provided input on the fund balances. Rick Benson noted that there are still minor issues to be addressed with the committee on the Midpines station. He advised that he will prepare a revised budget action form to reflect the $42,558 donation from the Fish Camp community. The Board recessed at 12:17 p.m. for the revised budget action form to be prepared; and reconvened at 12:26 p.m. Rick Benson presented the revised budget action form, and discussion was held.

The recommended budget actions were approved, with the inclusion of the revisions to reflect $439,796 being taken from the POB Designation fund.

Approval of New Airport Lease Documents for Ground, Hangar, and Tie Down Spaces (Continued from March 6, 2012)

Supervisor Allen was excused at 9:46 a.m. for this item due to a potential conflict of interest. Discussion was held with Pete Rei relative to the revised lease forms and the status of the existing lease agreements. Rob Binder, representing the County Airport Advisory Committee, advised that the Committee feels that the ground lease form should not be approved, but they are okay with the others. He advised that they object to the last two sentences at the end of paragraph three in the ground lease relative to the linkage of the fees to the tie down space fees. They would like the ground lease fees to be fixed for the term of each lease, and he noted that KMPI has a fixed fee for the term of their lease. Discussion was held. Pete Rei stated he does not feel that the fees have to be linked - that could be changed. Supervisor Bibby suggested that the end of 2014 be used for the expiration of all of the leases to allow time to further review the issues, and she expressed concern with the possibility of subletting. Rob Binder noted that the commercial leases and sublease issues are on the Committee’s agenda to address in the future. Rick Benson/County Administrative Officer, recommended that there be a provision that would protect the County in periods of high inflation. Pete Rei agreed with extending the expired leases to the end of 2014, and with deleting the linkage of the fees until the end of 2014 and with further review to occur.

Input from the public was provided by the following:
Rob Binder, speaking as an individual, presented information and input on how other airports operate.

Ruth Sellers asked whether the personal property tax revenues from the planes go to the Airport Enterprise Fund.

The new Airport lease documents were approved, with the deletion of the last two sentences in paragraph three of the ground lease relative to the linkage of the fees; and with direction that the expired leases be extended to 2014. The motion was amended, agreeable with the maker and second, to clarify that just the ground lease is being changed to delete the linkage of fees and that authorization be given to extend expired leases to December 31, 2014. The rest of the lease documents were approved as submitted.

Judge Walton/Superior Court asked that item 13 be pulled for input and separate action.

Supervisor Allen pulled item 13 and asked that it be taken after approval of the balance of the Consent Agenda while the Superior Court Judges were present.

The balance of the items was approved.

Judge Walton stated he supports the rejection of the bid because it was significantly higher than the estimate that was first received for this project, and he believes that the other contractors were not willing to submit a bid because there were unanswered questions at the pre-bid meeting. He would like to have better information available for the rebid. Judge Parrish/Superior Court, stated he appreciates that a structural engineer will look at the Courthouse and he wants this to occur before the project is rebid. He expressed concern with the pending repairs issues with the Courthouse.

Discussion was held and Pete Rei/Public Works Director provided input relative to the status of the contract and work by the structural engineer/Thor Matteson.
